PROXY STATEMENT FOR 2018 ANNUAL MEETING OF STOCKHOLDERS

GENERAL INFORMATION

The enclosed proxy is solicited on behalf of our board of directors for use at our 2018 Annual Meeting of Stockholders, or the annual meeting, to be held on June 14, 2018 at 8:00 a.m., Pacific Time, at 3910 Brickway Blvd., Santa Rosa, California 95403. Endologix, Inc. is sometimes referred to herein as “we”, “us”, “our” or our “Company.”

The following questions and answers are intended to briefly address potential questions that our stockholders may have regarding this proxy statement and the annual meeting. They are also intended to provide our stockholders with certain information that is required to be provided under the rules and regulations of the Securities and Exchange Commission, or the SEC.

QUESTIONS AND ANSWERS ABOUT THESE PROXY MATERIALS AND VOTING

When and where will the annual meeting be held?

You are invited to attend the annual meeting to be held on June 14, 2018 at 8:00 a.m., Pacific Time at 3910 Brickway Blvd., Santa Rosa, California 95403.

Why did I receive these proxy materials?

We are making these proxy materials available in connection with the solicitation by our board of directors of proxies to be voted at the annual meeting, and at any adjournment or postponement thereof. Your proxy is being solicited in connection with the annual meeting because you owned our common stock at the close of business on April 16, 2018, which is the record date for the annual meeting. This proxy statement contains important information for you to consider when deciding how to vote on the matters brought before the annual meeting.

You are invited to attend the annual meeting in person to vote on the proposals described in this proxy statement. However, you do not need to attend the annual meeting to vote your shares. Instead, you may vote your shares as described in the Notice and in the response to the question entitled “*How do I vote?*” below.

Your vote is very important. Whether or not you plan to attend the annual meeting, we encourage you to read this proxy statement and submit your proxy or voting instructions as soon as possible.

Why did I receive a notice in the mail regarding the Internet availability of proxy materials?

Instead of mailing printed copies of our proxy materials to our stockholders, we have elected to provide access to them through the Internet under the SEC’s “notice and access” rules. Accordingly, on or about April 30, 2018, we mailed a Notice of Internet Availability of Proxy Materials, or the Notice, to each of our stockholders. The Notice contains instructions on how to access our proxy materials, including this proxy statement and our annual report on Form 10-K for the fiscal year ended December 31, 2017, each of which are available at www.proxyvote.com. The Notice also provides instructions on how to vote your shares through the Internet, by telephone, or by mail.

We believe compliance with the SEC’s “notice and access” rules will allow us to provide our stockholders with the materials they need to make informed decisions, while lowering the costs of printing and delivering those materials and reducing the environmental impact of the annual meeting. However, if you would prefer to receive printed proxy materials, please follow the instructions included in the Notice or as described below.

Who may vote at the annual meeting?

Only stockholders of record as of the close of business on the record date, April 16, 2018, are entitled to vote at the annual meeting. As of the record date, there were 83,996,817 shares of our common stock outstanding and entitled to vote, held by 244 holders of record.

What is the quorum requirement for the annual meeting?

At least a majority of the outstanding shares of our common stock entitled to vote at the annual meeting must be present in person or represented by proxy in order to transact business at the annual meeting. This is referred to as a quorum. Abstentions and broker non-votes will be treated as shares present in person or represented by proxy at the annual meeting for purposes of determining whether or not a quorum exists. If there is no quorum, the chairman of the annual meeting, or the holders of a majority of shares present at the annual meeting in person or represented by proxy, will adjourn the annual meeting to a later date.

What is the difference between a stockholder of record and a beneficial owner of shares held in "street name"?

Stockholder of Record

If, on the record date, your shares were registered directly in your name with American Stock Transfer and Trust Company, or our transfer agent, then you are a stockholder of record. As a stockholder of record, you may vote in person at the annual meeting. Alternatively, you may vote by proxy through the Internet, by telephone or by mail as described in the Notice. Whether or not you plan to attend the annual meeting in person, we urge you to vote your shares by proxy to ensure that your vote is counted.

Beneficial Owner

If, on the record date, your shares were not registered directly in your name with our transfer agent, but instead were held in an account at a brokerage firm, bank, or other nominee, then you are a beneficial owner of shares held in "street name," and these proxy materials are being forwarded to you by your broker, bank, or other nominee, which is considered to be the stockholder of record with respect to those shares. As a beneficial owner, you are entitled to give instructions to your broker, bank, or other nominee regarding how to vote the shares in your account. You are also invited to attend the annual meeting. However, because you are not the stockholder of record, you may not vote your shares in person at the annual meeting unless you request and obtain a valid legal proxy from your broker, bank, or other nominee. Whether or not you plan to attend the annual meeting, we urge you to vote your shares.

How many votes do I have?

You have one vote for each share of our common stock that you own as of the close of business on the record date. These shares include shares that (i) you hold directly, as a stockholder of record, and (ii) are held for you in "street name" through a broker, bank, or other nominee.

What proposals will be voted on at the annual meeting?

The proposals to be voted on at the annual meeting are as follows:

- **Proposal No. 1.** Election to our board of directors of Guido J. Neels, the Class II nominee named in this proxy statement, for a term of three years expiring upon the 2021 annual meeting of stockholders, and until his successor is duly elected and qualified.
- **Proposal No. 2.** Approval, on a non-binding advisory basis, of the compensation of our named executive officers as disclosed in this proxy statement.
- **Proposal No. 3.** Ratification of the appointment of KPMG LLP, or KPMG, as our independent registered public accounting firm for the fiscal year ending December 31, 2018.
- **Proposal No. 4.** Approval of an amendment to our Amended and Restated Certificate of Incorporation, as amended, or our Charter, to increase the total number of authorized shares of our common stock by 35,000,000 shares, or from 135,000,000 shares to 170,000,000 shares.

- **Proposal No. 5.** Approval of amendments to our Endologix, Inc. 2015 Stock Incentive Plan, as amended, or our 2015 Plan, to, among other things, increase the total number of shares of our common stock reserved for issuance under the plan by 500,000 shares, or from 9,800,000 shares to 10,300,000 shares.
- **Proposal No. 6.** Approval of the adoption of a stock option exchange program, or the Exchange Program, as described in this proxy statement.

We will also consider such other business as may properly come before the annual meeting, or any adjournment or postponement thereof. As of the record date, we are not aware of any other matters to be submitted by our stockholders for consideration at the annual meeting. If any other matters are properly brought before the annual meeting, the persons named on the accompanying proxy card will vote the shares they represent using their best judgment.

What are my voting options on each proposal?

You may vote on the proposals presented at the annual meeting as follows:

- **Proposal No. 1.** You may either vote “FOR” the nominee for Class II director or you may “WITHHOLD” your vote for the nominee.
- **Proposal No. 2.** You may cast an advisory vote “FOR” or “AGAINST” the compensation of our named executive officers as disclosed in this proxy statement, or you may abstain from voting.
- **Proposal No. 3.** You may vote “FOR” or “AGAINST” the ratification of the appointment of KPMG as our independent registered public accounting firm for the fiscal year ending December 31, 2018, or you may abstain from voting.
- **Proposal No. 4.** You may vote “FOR” or “AGAINST” the amendment to our Charter, or you may abstain from voting.
- **Proposal No. 5.** You may vote “FOR” or “AGAINST” the amendment to our 2015 Plan, or you may abstain from voting.
- **Proposal No. 6.** You may vote “FOR” or “AGAINST” the adoption of the Exchange Program, or you may abstain from voting.

How do I vote?

The procedures for voting are as follows:

Stockholder of Record

If you are a stockholder of record, you may vote in person at the annual meeting. Alternatively, you may vote by proxy through the Internet, by phone or by mail as described below. Whether or not you plan to attend the annual meeting, we urge you to vote by proxy to ensure your vote is counted. If you have already voted by proxy, you may still attend the annual meeting and vote in person, and your vote at the annual meeting will have the effect of revoking your proxy. Please see the response to the question entitled “*Can I change my vote after submitting my proxy?*” below for additional information.

- **Vote in Person.** To vote in person, please attend the annual meeting and request a ballot when you arrive.
- **Vote by Internet.** To vote through the Internet, go to www.proxyvote.com and follow the instructions provided on the website. In order to cast your vote, you will be asked to provide the control number from the Notice. Internet voting is available 24 hours a day and will be accessible until 11:59 p.m. Eastern Time on June 13, 2018. Our Internet voting procedures are designed to authenticate stockholders by using individual control numbers, which are located on the Notice.
- **Vote by Phone.** To vote by phone, call 1-800-690-6903 from any touch-tone telephone and follow the instructions. In order to cast your vote, you will be asked to provide the control number from the Notice. Telephonic voting is available 24 hours a day and will be accessible until 11:59 p.m. Eastern Time on June 13, 2018. Our telephonic voting procedures are designed to authenticate stockholders by using individual control numbers, which are located on the Notice.
- **Vote by Mail.** To vote by mail using a proxy card, you must request to receive printed proxy materials by following the instructions included on the Notice. The proxy card will be provided with the printed proxy materials. Once received, simply complete, sign and date the proxy card and return it promptly in the envelope provided.

Beneficial Owner

If you are a beneficial owner of shares registered in the name of your broker, bank or other nominee, you should have received a Notice or a proxy card and voting instructions with these proxy materials from that organization rather than from us. To vote your shares, simply follow the instructions provided to you. To vote in person at the annual meeting, you must obtain a valid proxy from your broker, bank or other nominee.

What happens if I do not give specific voting instructions?

Stockholder of Record

If you are a stockholder of record and you indicate when transmitting your voting instructions by Internet or by telephone that you wish to vote as recommended by our board of directors, or you sign and return a proxy card by mail without giving specific voting instructions, then the proxy holders will vote your shares in the manner recommended by our board of directors on all matters presented in this proxy statement and as the proxy holders may determine in their discretion with respect to any other matters properly presented for a vote at the annual meeting.

Beneficial Owner

Generally, if you are a beneficial owner of shares held in "street name", you are entitled to give instructions to that organization regarding how to vote your shares. If you do not provide voting instructions, your broker, bank or other nominee may still vote your shares with respect to matters that are considered to be "routine," but may not vote your shares with respect to matters that are considered to be "non-routine." If the organization that holds your shares does not receive instructions from you on how to vote your shares on a "non-routine" matter, the organization will inform the inspector of elections that it does not have the authority to vote on such matter with respect to your shares. This is generally referred to as a "broker non-vote."

What proposals are considered "routine" or "non-routine"?

The election of directors (Proposal No. 1), the non-binding advisory vote on executive compensation (Proposal No. 2), the approval of an amendment to our Charter (Proposal No. 4), the approval of amendments to our 2015 Plan (Proposal No. 5), and the approval of the adoption of the Exchange Program (Proposal No. 6) are each considered "non-routine" matters under the applicable rules. A broker, bank or other nominee cannot vote your shares on these matters without voting instructions from you, and therefore broker non-votes may exist in connection with Proposal Nos. 1, 2, 4, 5 and 6.

The ratification of the appointment of KPMG (Proposal No. 3) is considered a "routine" matter under applicable rules, and your broker, bank or other nominee may vote your shares for Proposal No. 3 without receiving voting instructions from you.

How do you treat broker non-votes?

Shares represented by proxies that reflect a broker non-vote will be counted for purposes of determining the presence of a quorum. The election of directors (Proposal No. 1), the non-binding advisory vote on executive compensation (Proposal No. 2), the approval of amendments to our 2015 Plan (Proposal No. 5), and the approval of the adoption of the Exchange Program (Proposal No. 6) are considered "non-routine" matters and broker non-votes, if any, will not be counted as votes cast on these proposals and will not affect the outcome of the voting on these proposals. The approval of an amendment to our Charter (Proposal No. 4) is considered a "non-routine" matter and broker non-votes, if any, will count as votes against this proposal. The ratification of the appointment of KPMG (Proposal No. 3) is considered a "routine" matter, so we do not expect any broker non-votes in connection with this proposal.

What happens if I abstain from voting?

Share represented by proxies that reflect abstentions or withheld votes as to a particular proposal will be counted as present at the annual meeting for purposes of determining the presence of a quorum. Abstentions and withheld votes are generally treated as shares present in person or represented by proxy and entitled to vote at the annual meeting. We will treat abstentions as follows:

- abstentions will be treated as not voting for purposes of a proposal, the approval of which is determined by a plurality of the votes of the shares present in person or represented by proxy and entitled to vote on the proposal at the annual meeting, such as the election of directors (Proposal No. 1), and thus will not affect the outcome of the voting on such proposal; and

- abstentions will have the same effect as votes against a proposal, the approval of which requires the affirmative vote of a majority of the outstanding shares of our common stock present in person or represented by proxy and entitled to vote on the proposal at the annual meeting (Proposal Nos. 2, 3, 5 and 6), or the approval of which requires the affirmative vote of a majority of the outstanding shares of our common stock entitled to vote on the proposal at the annual meeting (Proposal No. 4).

What is the voting requirement to approve each of the proposals?

- **Proposal No. 1.** Directors will be elected by a plurality of the votes of the shares present in person or represented by proxy and entitled to vote on the election of directors at the annual meeting, so the nominee for Class II director who receives the most “FOR” votes (among votes properly cast in person or represented by proxy) will be elected. Abstentions and broker non-votes will not affect the outcome of the voting on the election of directors.
- **Proposal No. 2.** The approval, on a non-binding advisory basis, of the compensation of our named executive officers, requires the affirmative vote of a majority of the outstanding shares of our common stock present in person or represented by proxy and entitled to vote on this proposal at the annual meeting. Abstentions will have the same effect as votes against this proposal. Broker non-votes will not affect the outcome of the voting on this proposal.
- **Proposal No. 3.** The approval of the ratification of the appointment of KPMG as our independent registered public accounting firm for the fiscal year ending December 31, 2018, requires the affirmative vote of a majority of the outstanding shares of our common stock present in person or represented by proxy and entitled to vote on this proposal at the annual meeting. Abstentions will have the same effect as votes against this proposal. We do not expect any broker non-votes in connection with this proposal.
- **Proposal No. 4.** The approval of an amendment to our Charter requires the affirmative vote of a majority of the outstanding shares of our common stock entitled to vote on this proposal at the annual meeting. Abstentions will have the same effect as votes against this proposal. Broker non-votes will count as votes against this proposal.
- **Proposal No. 5.** The approval of amendments to our 2015 Plan requires the affirmative vote of a majority of the outstanding shares of our common stock present in person or represented by proxy and entitled to vote on this proposal at the annual meeting. Abstentions will have the same effect as votes against this proposal. Broker non-votes will not affect the outcome of the voting on this proposal.
- **Proposal No. 6.** The approval of the adoption of the Exchange Program requires the affirmative vote of a majority of the outstanding shares of our common stock present in person or represented by proxy and entitled to vote on this proposal at the annual meeting. Abstentions will have the same effect as votes against this proposal. Broker non-votes will not affect the outcome of the voting on this proposal.

What are our board of director’s voting recommendations?

Our board of directors recommends that you vote your shares as follows:

- **Proposal No. 1.** “FOR” the nominee for Class II director.
- **Proposal No. 2.** “FOR” approval, on a non-binding advisory basis, of the compensation of our named executive officers as disclosed in this proxy statement.
- **Proposal No. 3.** “FOR” the ratification of the appointment of KPMG as our independent registered public accounting firm for the fiscal year ending December 31, 2018.
- **Proposal No. 4.** “FOR” approval of an amendment to our Charter, as described in this proxy statement.
- **Proposal No. 5.** “FOR” approval of amendments to our 2015 Plan, as described in this proxy statement.
- **Proposal No. 6.** “FOR” approval of the adoption of the Exchange Program, as described in this proxy statement.

How can I attend the annual meeting in person?

You must present a form of government-issued personal photo identification in order to be admitted to the annual meeting. If your shares are held in “street name,” you will also need proof of ownership to be admitted to the annual meeting. A recent brokerage statement or a letter from your nominee are examples of acceptable proof of ownership. No cameras, recording equipment, electronic devices, large bags, briefcases or packages will be permitted in the annual meeting.

Can I change my vote after submitting my proxy?

Yes. Any person giving a proxy pursuant to this solicitation has the power to revoke it at any time before it is voted at the annual meeting.

Stockholder of Record

If you are the stockholder of record, you may revoke your proxy in any one of four ways:

- You may vote again by Internet or telephone at a later time (prior to the deadline for Internet or telephone voting).
- You may submit a properly completed proxy card with a later date.
- You may send a written notice that you are revoking your proxy to Endologix, Inc. at 2 Musick, Irvine, California 92618, Attention: Corporate Secretary.
- You may attend the annual meeting and vote in person. However, attending the annual meeting will not, by itself, revoke your proxy or change your vote.

Beneficial Owner

If your shares are held in “street name,” you may revoke your proxy by following the instructions provided to you by your broker, bank or other nominee.

Who is paying for the cost of this proxy solicitation?

We will bear the entire cost of this proxy solicitation, including costs of preparing, assembling, printing and mailing this proxy statement, the Notice, the proxy card and any additional solicitation materials furnished to our stockholders. Copies of these proxy materials will be furnished to brokerage firms, banks or other nominees that hold shares of our common stock beneficially owned by others in the name of such organization, so that they may forward the proxy materials to such beneficial owners. We have retained Morrow & Sodali LLC, 470 East Ave, Stamford, Connecticut 06902, or Morrow, a proxy solicitation firm, to deliver solicitation materials to beneficial owners and to assist us in collecting proxies from such individuals. We expect to pay Morrow a fee of \$7,500 for their solicitation services. We may reimburse persons representing beneficial owners of shares for their expenses in forwarding solicitation materials to such beneficial owners. Solicitation of proxies may be supplemented by telephone, electronic mail or personal solicitation by our directors, officers or other regular employees. No additional compensation will be paid to directors, officers or other regular employees for such services.

I share an address with another stockholder, and we received only one paper copy of these proxy materials. How may I obtain an additional copy of these proxy materials?

SEC rules permit companies, brokers, banks and other nominees to deliver a single copy of the proxy materials to households at which two or more stockholders reside. This practice, known as “householding,” is designed to reduce duplicate mailings and save significant printing and postage costs, as well as natural resources. Stockholders sharing an address who have been previously notified by their broker, bank or other nominee and have consented to householding will receive only one copy of our proxy materials.

If you would like to opt out of this practice for future mailings and receive separate proxy materials for each stockholder sharing the same address, please contact your broker, bank or other nominee. You may also obtain additional copies of our proxy materials without charge by contacting us at Endologix, Inc. 2 Musick, Irvine, California 92618, Attention: Corporate Secretary, or by telephone by calling (949) 595-7200.

Stockholders sharing an address that are receiving multiple copies of our proxy materials can request delivery of a single copy of our proxy materials by contacting their broker, bank or other nominee, or by contacting us as indicated above.

Where can I find the voting results of the annual meeting?

We will announce preliminary voting results at the annual meeting and will publish final results in a current report on Form 8-K that we expect to file with the SEC within four business days of the annual meeting. If final voting results are not available to us in time to file a Form 8-K with the SEC within four business days of the annual meeting, we intend to file a Form 8-K to disclose preliminary voting results and, within four business days after the final results are known, we will file an additional Form 8-K with the SEC to disclose the final voting results.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

Board Structure

Prior to the annual meeting, our board of directors consisted of eight authorized directors divided into three classes, with Class I having two directors, Class II having three directors and Class III having three directors. Effective as of the date of our annual meeting, our board of directors has authorized a decrease in our authorized directors from eight to seven, and has reduced the number of Class II directors from three to two (with one vacancy). Each class of directors is elected for three-year terms on a staggered term basis, so that each year the term of office of one class will expire and the terms of office of the other classes will continue for periods of one and two years, respectively. Each director is elected to serve until the expiration of his or her term and until his or her successor is duly elected and qualified.

Director Nominee

At the annual meeting, our stockholders are being asked to elect one director nominee. The director nominee will serve as a Class II director with his term expiring at the annual meeting of stockholders to be held in 2021, and until his successor is elected and duly qualified. In addition, Class II will include one vacancy as a result of the transition of John McDermott, whose term as a Class II director is expiring at the annual meeting. Mr. McDermott will be stepping down from his role as our Chief Executive Officer no later than June 30, 2018, but currently remains in that role while we seek a successor. We currently anticipate that when we appoint a new Chief Executive Officer, such person will be nominated by our board of directors to fill the vacancy in Class II left by Mr. McDermott's transition, and our board of directors will concurrently increase our authorized directors from seven to eight.

The nominee for election as a Class II director at the annual meeting is Guido J. Neels, who currently serves as a director. Mr. Neels has served as a director since December 2010. Mr. Neels has indicated a willingness to continue to serve on our board of directors if elected. However, in the event that Mr. Neels is unable to or declines to serve as a director at the time of the annual meeting, the proxies will be voted for a nominee who shall be designated by the current board of directors to fill the vacancy. Unless otherwise instructed, the proxy holders intend to vote all proxies received by them in favor of the nominee listed above.

Corporate Governance Policy for Uncontested Election of Directors

In an uncontested election of directors, which is an election where the only nominees are those recommended by our board of directors, any director nominee who receives a greater number of votes "WITHHELD" from his or her election than votes "FOR" his or her election by stockholders present in person or represented by proxy at the annual meeting and entitled to vote in the election of directors, which we refer to as a majority withheld vote, must tender a written offer to resign from the board of directors to the Chairman of the Board within five business days of the certification of the stockholder vote.

Our Nominating, Governance and Compliance Committee, or Governance Committee, will promptly consider the resignation offer and recommend to our board of directors whether to accept it. However, if each member of our Governance Committee receives a majority withheld vote at the same election, then the independent members of our board of directors who have not received a majority withheld vote will appoint a committee among themselves to consider the resignation offers and recommend to our board of directors whether to accept them. In considering whether to accept or reject the resignation offer, our Governance Committee will consider all factors deemed relevant, including the length of service and qualifications of the director, the director's

contributions to our Company, the director's ability to meet "independence" standards, and our best interests and those of our stockholders. To the extent one or more resignations is accepted by our board of directors, our Governance Committee will then recommend to our board of directors whether to fill such vacancy or vacancies or to reduce the size of our board of directors.

Our board of directors will act on our Governance Committee's recommendation within 90 days following the certification of the stockholder vote, which may include acceptance of the offer of resignation, adoption of measures intended to address the perceived issues underlying the majority withheld vote, or rejection of the resignation offer. Our board of directors will disclose its decision whether to accept the director's resignation offer in a current report on Form 8-K to be filed with the SEC.

Our board of directors believes this process enhances accountability to stockholders and responsiveness to stockholders' votes, while allowing our board of directors appropriate discretion in considering whether a particular director's resignation would be in our best interests and those of our stockholders.

Required Vote

Directors will be elected by a plurality of the votes of the shares present in person or represented by proxy and entitled to vote on the election of directors at the annual meeting, so the nominee for Class II director who receives the most "FOR" votes (among votes properly cast in person or represented by proxy) will be elected. Proxies cannot be voted for a greater number of persons than the number of nominees named.

Recommendation of our Board of Directors

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT OUR STOCKHOLDERS VOTE "FOR" THE ELECTION OF GUIDO J. NEELS AS A DIRECTOR.

Information with Respect to Nominees and Directors

Set forth below for the nominee for election as a director, and for each of our other directors, is information regarding his or her age, position with us, the period he or she has served as a director, and the public company directorships held. With respect to each person, we have also provided the specific experience, qualifications, skills and attributes that led to the conclusion that such nominee or director should serve as a director.

Board Leadership Structure

In February 2017, our board of directors, upon the recommendation of our Governance Committee, separated the offices of Chairman of the Board and Chief Executive Officer and appointed Daniel Lemaitre as Chairman of the Board. Our board of directors believes that this separation is appropriate for us at this time because it allows for a division of responsibilities that permits our Chief Executive Officer to focus on our day-to-day business, while allowing our Chairman of the Board to focus on leading our board of directors. It also allows for the sharing of ideas between individuals having different perspectives as a result

of their different roles and responsibilities. Our Chief Executive Officer is primarily responsible for our operations and strategic direction. Our Chairman of the Board has an important responsibility to ensure effective and independent oversight of management and board decision-making. The Chairman of the Board coordinates the activities of the other non-employee directors, assists in facilitating communication between our board of directors and management, and performs other duties and functions as directed by our board of directors from time to time.

From March 2014 to February 2017, Mr. Lemaitre served as our Lead Independent Director pursuant to a lead independent director policy which was adopted by our board of directors in March 2014 upon the recommendation of our Governance Committee. Following the separation of the offices of Chairman of the Board and Chief Executive Officer, it is expected that the Lead Independent Director position will remain vacant until such time as the Chairman of the Board is not an independent director.

We currently anticipate that when we appoint a new Chief Executive Officer, such person will be nominated by our board of directors to fill the vacancy in Class II left by Mr. McDermott's transition. However, we also expect that Mr. Lemaitre will continue to serve as Chairman of the Board following such nomination.

Our board of directors retains the authority to change the current board leadership structure, including by recombining the Chief Executive Officer and Chairman of the Board positions if it deems such a change to be appropriate in the future.

Board of Directors Involvement in Risk Oversight

Our board of directors oversees our risk management practices and strategies, taking an enterprise-wide approach to risk management that seeks to complement our organizational and strategic objectives, long-term performance and the overall enhancement of stockholder value. The approach of our board of directors to risk management includes developing a detailed understanding of the risks we face, analyzing them with the latest information available, and determining the steps that should be taken to manage those risks, with a view toward the appropriate level of risk for a company of our size, stage of growth and financial condition.

While our board of directors has the ultimate responsibility for the risk management process, senior management and various committees of our board of directors also have responsibilities for certain areas of risk management. Our senior management team is responsible for day-to-day risk management and regularly reports on risks to our full board of directors or a relevant committee. Our legal, finance and regulatory areas serve as the primary monitoring and evaluation functions for company-wide policies and procedures, and manage the day-to-day oversight of the risk management strategy for our ongoing business. This oversight includes identifying, evaluating, and addressing potential risks that may exist at the enterprise, strategic, financial, operational, compliance and reporting levels.

Our Audit Committee focuses on financial compliance risk by working closely with management and our independent registered public accounting firm. Our Compensation Committee, assesses risks related to our compensation programs. In setting performance targets for incentive compensation, our Compensation Committee seeks to balance the need to incentivize performance that will drive our future growth and success and the need to encourage an appropriate level of risk-taking. Our Governance Committee monitors our compliance with legal and regulatory requirements that affect our Company and works closely with our internal compliance officers and outside legal counsel to identify and assess key operational risks related to legal and regulatory compliance.

Director Independence

Our common stock is listed on The NASDAQ Global Select Market and we are subject to the NASDAQ continued listing requirements, or the NASDAQ Listing Rules. Our board of directors has affirmatively determined that all of the current members of our board of directors, other than Mr. McDermott, are "independent" as defined in the NASDAQ Listing Rules. To the extent our new Chief Executive Officer is appointed to our board of directors following Mr. McDermott's transition, such person would not be "independent" as defined in the NASDAQ Listing Rules as a result of being our executive officer.

None of our independent directors have any transactions, relationships or arrangements not otherwise disclosed pursuant to the applicable SEC rules.

Meetings of our Board of Directors

Our board of directors met nine times during the year ended December 31, 2017. Each director attended at least 75% of the aggregate of (i) the total number of meetings of our board of directors and (ii) the total number of meetings held by all committees of our board of directors on which he or she served.

Committees of our Board of Directors

Our board of directors has an Audit Committee, a Compensation Committee and a Nominating, Governance and Compliance Committee. Our board of directors has affirmatively determined that each member of each of these committees meets the independence standards set forth in the applicable SEC rules and NASDAQ Listing Rules.

Each committee operates under a written charter adopted by our board of directors. Copies of the charters of all standing committees are available on the "Investor Relations" page on our website located at www.endologix.com.

Audit Committee

Our Audit Committee currently consists of Messrs. Waller (Chair), Lemaitre and Wilder. Our board of directors has determined that each member of our Audit Committee qualifies as an "audit committee financial expert" as that term is defined in the applicable SEC rules, and satisfies the "financial sophistication" standard as that term is defined in the NASDAQ Listing Rules.

Our Audit Committee has the sole authority to appoint and, when deemed appropriate, replace our independent registered public accounting firm, and has established a policy of pre-approving all audit and permissible non-audit services provided by our independent registered public accounting firm. Our Audit Committee has, among other things, the responsibility to:

- review and discuss with management and our independent registered public accounting firm the content of our financial statements prior to filing our quarterly reports on Form 10-Q, and the annual audited financial statements, including disclosures made in management's discussion and analysis of financial condition and results of operations, and recommend to our board of directors whether the audited financial statements should be included in our annual report on Form 10-K;
- discuss with management any major issues as to the adequacy of our disclosure controls and procedures, and discuss with our independent registered public accounting firm and management our internal control over financial reporting that have come to our auditor's attention during the conduct of the audit, and any special steps adopted in light of material control deficiencies;
- establish procedures for the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls, auditing or compliance matters, and the confidential, anonymous submission by employees of concerns regarding questionable accounting, auditing or compliance matters; and
- assist our board of directors in its oversight of our compliance with legal and regulatory requirements.

Our Audit Committee held four meetings during the year ended December 31, 2017. Our Audit Committee also meets separately with our independent registered public accounting firm and members of management.

Compensation Committee

Our Compensation Committee currently consists of Messrs. Neels (Chair), Chavez and Zenty. Our Compensation Committee is primarily responsible for discharging our board of director's responsibilities relating to compensation of our directors and executive officers. Our Compensation Committee held seven meetings during the year ended December 31, 2017.

Additional information regarding our Compensation Committee's evaluation and approval of executive officer and director compensation is included under the heading "Role of Compensation Committee" below.

Nominating, Governance and Compliance Committee

Our Governance Committee currently consists of Ms. Norwalk (Chair) and Messrs. Lemaitre, Neels and Waller. Our Governance Committee has, among other things, the responsibility to:

- assist our board of directors in identifying individuals qualified to become members of our board of directors, recommend director nominees for the next annual meeting of stockholders, and fill vacancies that may be created by the expansion of the number of directors of our board of directors and by resignation, retirement or other termination of incumbent members of our board of directors;
- develop and recommend to our board of directors corporate governance guidelines and changes thereto;
- lead our board of directors in its annual performance reviews;
- recommend to our board of directors nominees for each committee of our board of directors; and

- oversee our compliance efforts with respect to applicable legal and regulatory requirements and relevant internal policies and procedures (other than with respect to matters that relate to our financial statements, financial reporting processes and accounting functions, which are within the purview of our Audit Committee).

Our Governance Committee held four meetings during the year ended December 31, 2017.

Stock Ownership Policies

In May 2013, our board of directors, upon the recommendation of our Compensation Committee, adopted a stock ownership policy for members of our board of directors. Under the policy, our non-employee directors are required to hold a number of shares of our common stock equal to three times (3x) their base annual cash retainers, not including amounts received for service on committees. Incumbent non-employee directors have five years from the adoption of the policy, and new non-employee directors have five years from the date they are appointed to our board of directors, to reach the required ownership level.

To further align the interests of our management with those of our stockholders, in April 2014, our board of directors, upon the recommendation of our Compensation Committee, adopted a stock ownership policy for our executive officers. Under the policy, our Chief Executive Officer is required to hold a number of shares of our common stock equal to three times (3x) his or her annual base salary and our other executive officers are required to hold a number of shares of our common stock equal to their annual base salaries. Our current executive officers have five years from the adoption of this policy, and new executive officers have five years from the date of their appointment as executive officers, to reach the required ownership levels.

For purposes of these stock ownership policies, “ownership” of our common stock includes: (i) shares acquired pursuant to open-market purchases, (ii) shares acquired upon the exercise of stock options, (iii) shares acquired under our Amended and Restated 2006 Employee Stock Purchase Plan, or the 2006 ESPP, (iv) shares obtained upon the settlement of restricted stock units, and (v) “in-the-money” vested stock options.

Evaluation of Director Nominees

In the case of an incumbent director whose term of office is set to expire, in evaluating the director nominee, our Governance Committee reviews the nominee's overall services to us during his or her term, including the level of participation, the quality of his or her performance, and the continued need for the director's qualifications and professional experiences as part of the overall composition of our board of directors.

In the case of new director nominees, our Governance Committee typically screens potential candidates, performs reference checks, prepares a biography for each candidate and conducts interviews. The members of our Governance Committee and our Chief Executive Officer interview candidates that meet the criteria described below, and our Governance Committee recommends nominees to our board of directors that it believes are best suited to serve the needs of our board of directors and our stockholders.

Our Governance Committee does not evaluate nominees for director any differently to the extent that a nominee is recommended by a stockholder. We typically do not pay fees to any third party to identify or evaluate, or assist in identifying or evaluating, potential director nominees.

Our Governance Committee believes that all nominees for director must meet certain minimum qualifications, including having:

- the highest character and integrity;
- business or other experience that is of particular relevance to the medical device industry;
- sufficient time available to devote to our Company; and
- no conflicts of interest which would violate any applicable law or regulations or interfere with the proper performance of the responsibilities of a director.

We do not have a written policy with respect to diversity of the members of our board of directors. However, in considering nominees for service on our board of directors, our Governance Committee takes into consideration, in addition to the criteria summarized above, the diversity of professional experience, viewpoints and skills of the members of our board of directors. Examples of this include experience in the medical device industry, management experience, financial expertise, medical expertise, and educational background. Our Governance Committee and our board of directors believe that a diverse board leads to improved performance by encouraging new ideas, expanding the knowledge base available to management and other directors, and fostering a culture that promotes innovation and vigorous deliberation.

Stockholder Nominations of Directors

The stockholder must also state if the stockholder intends to appear in person or by proxy at the annual meeting to nominate the person specified in the notice.

2017 Executive Compensation Highlights

Our overarching executive compensation goals are to effectively align our compensation program design to our business strategy, and to attract and retain executives with the background and experience required to lead us forward and provide the best opportunity to achieve sustained growth and success. For 2017, we emphasized a strong pay-for-performance alignment by providing a significant portion of the overall compensation opportunity for our NEOs in the form of performance-based compensation, including performance-based cash bonuses and performance-based equity awards, each of which are correlated with the achievement of specific

Company and individual performance objectives. This performance-based compensation is designed to align the interests of our NEOs with those of our stockholders and encourage the achievement of performance goals that we believe are critical to our long-term growth. As described in this section, we believe our 2017 compensation program design was successful in striking the appropriate balance between achieving pay-for-performance alignment, and supporting retention during this critical stage of our growth. The specific components of our executive compensation program that we believe best highlight how we implemented our compensation philosophy and accomplished our compensation goals in 2017 are set forth below.

Significant Portion of Total Compensation is At-Risk

In furtherance of our pay-for-performance philosophy, the Compensation Committee, which we refer to as the Committee for purposes of this section, annually reviews both the amount of, and the mix between, guaranteed pay and at-risk pay for our executive officers and seeks to establish appropriate performance objectives for the at-risk pay so as to ensure our performance criteria align with our financial and operational objectives, are appropriately challenging to achieve, and mitigate our overall compensation-related risk.

A significant portion of an executive's total compensation opportunity in 2017 was provided in the form of compensation that was at-risk rather than guaranteed. We offer certain standard compensation elements that provide guaranteed payments, such as base salary and limited employee benefits. However, our executive compensation mix in 2017 was weighted toward at-risk pay. In general, at-risk pay involves compensation awards that only vest or become payable subject to the achievement of specific performance conditions, or the value of which is correlated to our stock price (or a combination of both).

For 2017, our executive compensation program included the following components that were at risk:

- **Cash Bonus Plan Awards**: Only vest upon the achievement of pre-determined Company performance objectives and individual management by objectives, or MBOs;
- **Performance-Based Restricted Stock Units (PSUs)**: Only vest upon the achievement of pre-determined Company performance objectives and fluctuate in value based on the market price of our common stock; and
- **Time-Based Stock Options (Options)**: Result in value to our NEOs only to the extent they remain in our employ and the market price of our common stock appreciates over the option term.

2017 Cash Bonus Plan Awards Paid Out Significantly Below Target

Our cash bonus program demonstrates our strong pay-for-performance alignment because the amount of cash bonus payout actually realized by our NEOs is determined based upon achievement relative to Company and individual performance objectives, which may result in no cash bonus payouts or payouts that are significantly lower than the target bonus amounts. The Committee believes choosing the right performance criteria for performance-based awards is critical for properly motivating our executives, aligning their interests with those of our stockholders and advancing our pay-for-performance philosophy. In particular, it is crucial that the performance criteria be reconsidered each year as our business strategy and market evolve to ensure they provide the appropriate barometer of our growth and success, and motivate the achievement of our objectives in line with how we currently view the business.

For 2017, 70% of the actual cash bonus opportunity was based on achievement of certain corporate financial and operational objectives, which we refer to as Corporate Performance Objectives, including global sales, gross margin and cash burn rate goals, or the Financial Objectives, as well as quality and risk management goals, or the Operational Objectives. After taking into account the achievement of the various Corporate Performance Objectives relative to the target amounts, only 25% of the target bonus that is tied to the Corporate Performance Objectives was achieved. Accordingly, the adoption of our 2017 cash bonus plan placed a significant portion of our NEO's overall compensation opportunity at risk, and the failure to achieve the target levels of performance (and in some cases the threshold levels of performance) with respect to certain Corporate Performance Objectives resulted in significantly reduced bonus payouts to our NEOs compared to both the 2017 target bonus amounts and the actual bonus amounts paid in 2016.

See the section below entitled "2017 Cash Bonus Plan Awards" for additional information.

No NEOs Received Base Salary Increases in 2017

The Committee considered whether any base salary increases were warranted based on a review of peer group data, our NEOs contributions to the achievement of our financial and operational objectives, and overall Company performance. While it was determined that base salary increases would have been warranted based on the peer group review, our leadership team elected not

to accept base salary increases in order to preserve financial resources. Accordingly, the Committee decided not to increase salaries for our NEOs from 2016 levels.

Company Did Not Achieve Performance Criteria for 2017 PSUs and the Awards Were Forfeited

Consistent with our pay-for-performance philosophy, we grant equity awards that vest subject to the achievement of pre-determined Company performance objectives that the Committee believes are important for our long-term growth and success, which awards vest based on the level of achievement as compared to the performance objective and are subject to forfeiture if the threshold level of performance is not achieved. Similar to the process for establishing performance objectives for the cash bonus program, the Committee acknowledges that it must choose the right performance criteria for the equity awards to ensure they provide the appropriate incentives and motivate achievement of important financial and strategic objectives.

The Committee selected a global sales goal as the performance criterion for the PSUs because the Committee believes global sales is an important indicator of our future growth and profitability. The PSUs were designed to vest based upon the Company's achievement relative to a target global sales amount for 2017, but provided that no vesting would occur if the Company did not achieve a threshold performance level. Since the 2017 global sales threshold level was not achieved, the awards were not earned and were forfeited. Accordingly, the issuance of PSUs in 2017 placed a significant portion of our NEO's overall compensation opportunity at risk, and the failure to achieve the threshold level of performance with respect to the performance criteria resulted in no value to our NEOs.

See the section below entitled "2017 Performance-Based Restricted Stock Units" for additional information.

Time-Based Stock Options Require Long-Term Vesting to Promote Retention

Our executive compensation program is designed to balance the need to incentivize executives to focus on building long-term value for stockholders, while at the same time acknowledging it is imperative to retain our executives, particularly in this critical stage of our growth and at a time when our stock price has been volatile. Issuing a portion on our annual equity awards in the form of options with time-based vesting serves to accomplish both of these goals. Options inherently contain a performance component because the awards are granted with an exercise price equal to fair market value on the grant date and only have value to the recipient to the extent the value of our common stock increases during the option term. In addition, time-based awards promote executive retention because they vest over a long-term service period and are not directly correlated with Company performance milestones, which may not be achieved despite the expenditure of significant effort by the executive. For 2017, we issued time-based options to our NEOs that vest in equal monthly installments over 48 months, such that the options will become fully vested on the fourth anniversary of the grant date, subject to an NEO's continued employment with us during that time.

Amendments to Our 2015 Plan

As discussed in Proposal 5 of this proxy statement, our board of directors has approved changes to our 2015 Plan to adopt several important elements that we believe reflect our commitment to sound governance practices and further limit our compensation-related risks. We intend to amend our 2015 Plan to do the following:

- **Minimum Vesting Requirement:** Impose a minimum vesting period of at least 12 months for awards granted under our 2015 Plan following the date on which the amendment is adopted, subject to certain limitations. This vesting condition requires that the participant receiving the grant remain employed by us for at least 12 months before being able to realize any value from his or her equity award, thus further promoting retention.
- **No Dividends on Unvested Awards:** Eliminate our ability to provide for the payment of dividends on unvested shares of our common stock that are subject to outstanding awards granted under our 2015 Plan.
- **Clawback Policy:** Reference the adoption of our Clawback Policy, and allow for the inclusion of other clawback, recovery or recoupment provisions in the relevant award agreements, including a reacquisition right upon the occurrence of certain events.

Clawback Policy

Though the SEC has not yet finalized rules implementing the requirement for adoption of a clawback policy as contemplated by the Dodd-Frank Act, we have voluntarily adopted a Clawback Policy which we believe reinforces our pay-for-performance philosophy and contributes to a Company culture that emphasizes integrity and accountability in financial reporting.

Pursuant to our Clawback Policy, in the event we are required to prepare an accounting restatement of our financial statements

as a result of our material noncompliance with any financial reporting requirement under the federal securities laws, our board of directors will require reimbursement or forfeiture of any excess performance-based cash or equity incentive compensation received by any of our executive officers during the three completed fiscal years immediately preceding the date on which we are required to prepare the accounting restatement. Our Clawback Policy applies all incentive compensation granted to covered employees after the date on which the policy was adopted.

Stockholder Engagement

We are committed to enhancing and expanding our stockholder outreach efforts, including by proactively soliciting and incorporating stockholder feedback on the design and effectiveness of our executive compensation program. This perspective is motivated, in part, by the results of our “Say-on-Pay” vote at our 2017 annual meeting, at which our stockholders did not approve, by advisory vote, the compensation of our NEOs for 2016, which was an unexpected change as compared to our high approval rates in prior years. We have consistently engaged in meaningful stockholder engagement efforts over the last several years, although the results of the “Say-on-Pay” vote in 2017 caused our management team to acknowledge an even greater need for stockholder engagement as a means to engage in dialogue with and seek feedback from stockholders, offer our perspective on and rationale for making certain compensation decisions, and improve overall stockholder support for our executive compensation program and governance practices generally.

Accordingly, in mid-2017, we held meetings with a number of our largest investors that collectively held more than 60% of our shares at that time, to discuss their views and concerns regarding our compensation program. John McDermott, our Chief Executive Officer, our CEO, and Vaseem Mahboob, our CFO, led our stockholder engagement efforts, and attended meetings with portfolio managers, analysts and compliance personnel at our largest investors. The specific purpose of the meetings was to understand their perspectives regarding our compensation program and solicit specific feedback on current and potential design elements and practices.

During these conversations, we took the opportunity to review our business strategies and performance, and to discuss our corporate governance initiatives. We also provided responses to specific concerns raised by proxy advisory groups, greater detail as to why those groups found certain aspects of our compensation program unfavorable, and perspective regarding our plans for improvement, including the adoption of certain initiatives described in this proxy statement. We gave our investors an opportunity to ask questions, and answered specific questions regarding our management and ongoing business and strategic concerns. We also responded to investor questions regarding our decision-making process with respect to executive compensation, including discussion of the role of our independent compensation consultant in making recommendations to the Committee, the Committee’s determination of our peer group, and how and why certain decisions were made. In response to feedback from our stockholders during our outreach efforts, we have made a number of significant changes to our executive compensation program, including our heightened focus on a pay-for-performance philosophy and the proposed amendments to our 2015 Plan.

The Committee believes that ongoing, transparent communication with our stockholders is critical to our long-term success, and that the feedback received through our stockholder engagement efforts will continue to contribute to the evolution and enhancement of our executive compensation program. The Committee considers stockholder engagement to be an important part of its decision-making process and plans to continue proactive outreach efforts to our top investors during the coming months, and to work to integrate that feedback into its compensation decisions going forward.

Compensation Philosophy

We strive to establish compensation policies and programs that will effectively align our compensation program design to our business strategy, while attracting and retaining executives with the talent necessary to lead our Company. We also seek to strengthen the mutuality of interests between our executives and our stockholders in order to motivate our executives to maximize stockholder value. Finally, we emphasize a strong pay-for-performance alignment by providing a significant portion of the overall compensation opportunity in the form of performance-based compensation that is at-risk.

Primary Goals of our Compensation Program

The primary goals of our executive compensation policies and programs are as follows:

GOAL	HOW OUR PROGRAM ACHIEVES THAT GOAL
Attract and Retain Executives	<ul style="list-style-type: none">• Attract executives who have the background and experience required to lead us forward and provide the best opportunity to achieve sustained growth and success.• Retain our knowledgeable and talented executives by offering compensation that is competitive among our peer group companies and our industry generally.
Pay-for-Performance	<ul style="list-style-type: none">• Offer a significant portion of the total compensation opportunity in the form of performance-based compensation that is at-risk instead of guaranteed.• Ensure performance-based compensation is directly correlated with the achievement of pre-established Company financial and operational objectives that the Committee believes are important to our long-term success.
Reward Achievement	<ul style="list-style-type: none">• Provide meaningful incentives for achieving Company financial and operational objectives that the Committee believes are important for achieving our strategic objectives.• Effectively align our compensation program design to our business strategy.
Align Interests with Stockholders	<ul style="list-style-type: none">• Align the interests of our executives with those of our stockholders by tying a significant portion of compensation to performance objectives which the Committee believes are likely to result in the creation of long-term stockholder value.• Ensure that a portion of the total compensation is directly correlated to total stockholder return by issuing awards that increase in value as our stock price increases.

Governance Practices that Strengthen our Compensation Philosophy

Our executive compensation program has significant governance components that we believe further strengthen our compensation philosophy and reduce compensation-related risk, including as follows:

COMPENSATION PRACTICE	WHAT WE DO
Independent Directors	• All of the members of our board of directors, other than our CEO, are independent directors under the applicable NASDAQ Listing Rules and applicable SEC rules.
Independent Compensation Committee	• The Committee consists entirely of independent directors.
Independent Compensation Consultant	• The Committee has retained an independent compensation consultant that assists the Committee in gathering competitive pay data, selecting our peer group, and structuring our executive compensation program. The decision to engage the consultant was made by the Committee and the consultant reports directly to the Committee.
Compensation Risk Assessment	• The Committee performs an annual review of its charter and the risks related to our compensation practices. See the section entitled “Compensation Risk Considerations” for additional information.
Frequency of “Say on Pay” Vote	• We ask stockholders to provide an advisory vote on our pay practices on an annual basis, and the Committee considers the outcome of the vote when establishing our executive compensation program.
Stock Ownership Policies	• We have adopted stock ownership policies for our executive officers and non-employee directors, which are reviewed annually. See the section entitled “Stock Ownership Policies” for additional information.
Clawback Policy	• We recently adopted a Clawback Policy related to our cash and equity incentive awards granted to executive officers after the policy was adopted.
No Dividends on Unvested Equity Awards	• We intend to amend our 2015 Plan to eliminate our ability to provide for the payment of dividends on unvested equity awards.
Minimum Vesting Requirements	• We intend to amend our 2015 Plan to impose minimum vesting requirements on the awards we issue under the plan, subject to certain limitations.
No Repricing of Awards	• Our 2015 Plan explicitly prohibits repricing outstanding options without majority stockholder consent.
No Hedging	• Our Insider Trading Policy specifically prohibits transactions that create a hedge against fluctuations in the market price of our common stock.
No Pledging	• Our Insider Trading Policy specifically prohibits pledging our shares as collateral and other similar practices, such as purchasing our shares on margin and holding our shares in a margin account.
No Severance Tax Gross-Ups	• Our change in control and severance arrangements do not provide for excise tax gross-up payments.

Role of Compensation Committee

The Committee has the overall responsibility for reviewing, approving and evaluating our executive compensation policies and programs. In particular, the Committee is responsible for approving the compensation and benefits paid to our directors and executive officers, and for administering our equity compensation plans and the awards granted under our plans. In discharging its responsibility to ensure that our executive compensation program is effectively designed in light of our compensation philosophy, the Committee regularly assesses each element of our compensation policies and considers changes to our compensation program. The Committee, which is comprised solely of independent directors under the applicable SEC rules and NASDAQ Listing Rules, reviews and approves all elements of compensation for our NEOs and other executive officers.

Compensation Consultant

The Committee receives assessments and advice regarding our compensation policies and programs from Radford, a third-party compensation consultant. Radford provides information on competitive pay practices and trends in our industry, and makes recommendations regarding the formulation of our peer group, as well as the design and structure of our compensation program. While we are not obligated to retain an independent compensation consultant, the Committee believes that the use of an independent compensation consultant provides additional assurance that our executive compensation program is competitive, is consistent with our objectives and pay practices in our industry generally, and is reflective of our compensation philosophy.

In accordance with applicable SEC rules, when selecting Radford, the Committee assessed Radford’s independence, taking into consideration the following factors: (i) the provision of other services to the Company by Radford, (ii) the amount of fees received

from us by Radford, as a percentage of Radford's total revenue, (iii) Radford's policies and procedures that are designed to prevent conflicts of interest, (iv) any business or personal relationship of the individual compensation consultants or Radford with any member of the Committee or any of our executive officers and (v) any ownership of our common stock by the individual compensation consultants. Furthermore, Radford does not provide any additional services to us or our management, other than the services that are provided to the Committee in Radford's capacity as our compensation consultant. Following the consideration of these factors, and such additional factors as the Committee deemed appropriate under the circumstances, the Committee made an affirmative determination that Radford's services did not create any conflict of interest and that Radford is independent, and unanimously approved the engagement of Radford.

The decision to engage Radford was made by the Committee, and Radford reports directly to the Committee. The Committee has the authority to direct, terminate or continue Radford's services. While members of our management regularly communicate with representatives of Radford, our management did not recommend the engagement of Radford and does not direct or oversee the retention or activities of Radford with respect to our executive compensation program.

The Committee principally engages Radford for the purpose of recommending and evaluating a set of peer group companies, compiling competitive market data from our peer group and our industry generally, and assessing the compensation program for our executives as compared to those of our peer group. The Committee meets regularly with Radford throughout the year, carefully reviews and assesses the materials provided by Radford, and engages in thorough deliberations with Radford and management regarding our compensation program and potential changes.

Peer Group

Each year, Radford compiles a list of medical device companies that are generally similar to our Company based upon a number of metrics, including revenue, market capitalization, number of employees, industry focus and competition for executive talent. As part of the peer review process, Radford carefully examines both the individual comparison metrics and the specific proposed peer group companies to ensure alignment with our current size and profile. The Committee reviews the proposed list of peer group companies and, following discussion with Radford and management, approves the set of peer group companies

For 2017, the primary change to our peer group as compared to 2016 resulted from taking into account our lower market capitalization, which resulted from the decline in the trading price of our common stock during the year. Our peer group for 2017 consisted of the following 17 companies:

PEER GROUP FOR 2017	
• Abaxis	• Glaukos
• Accuray	• Intersect ENT
• AngioDynamics	• iRhythm Technologies
• AtriCure	• LeMaitre Vascular
• Atrion	• Natus Medical
• Cardiovascular Systems	• Orthofix International N.V.
• CryoLife	• Penumbra
• Entellus Medical	• STAAR Surgical
• Exactech	

Use of Peer Group in Setting Executive Compensation

In 2017, the Committee engaged Radford to gather and analyze compensation information from our peer group and other competitive market data to assist it in assessing our executive compensation program. For comparison purposes, Radford presents a summary of the peer group data in a manner that reflects compensation paid, both on an aggregate basis and with respect to individual elements of compensation, within the 25th, 50th and 75th percentiles by our peer group companies. In making compensation decisions, the Committee typically compares total compensation, as well as each element of compensation, paid to our executives against the compensation paid to executives within our peer group.

The peer group compensation data is used as an initial guideline in making compensation decisions for our executives, including with respect to both the target level of total compensation and the overall structure of our executive compensation program. Historically, the Committee has targeted approximately the 50th percentile of our peer group for purposes of setting total compensation, as well as for each element of compensation. However, while the peer group compensation data is a significant factor in the Committee's evaluation, it also considers a variety of additional factors when making executive compensation decisions, including

retention concerns, tenure and experience, level of responsibility, our recent and projected performance, individual performance, industry practices and general economic conditions. In addition, in order to gain a broader perspective on overall market trends and practices, the Committee regularly reviews data from both targeted and broader-based compensation surveys.

In determining base salaries for our NEOs in 2017, the Committee reviewed Radford's report on base salaries for our NEOs relative to executives at our peer group companies. Based on this review, the Committee concluded that base salary increases would have been warranted for certain executives, although our leadership team elected not to accept base salary increases in order to preserve financial resources. Accordingly, the Committee decided not to increase salaries for our NEOs.

With respect to the cash bonus opportunity for our NEOs in 2017, the Committee reviewed Radford's assessment of cash bonuses for our NEOs relative to executives at our peer group companies. The Committee typically aims to establish target cash bonuses in the 50th percentile of our peer group and determined that the target bonuses as a percentage of base salary fell within that range. Accordingly, the Committee did not recommend any increases to the target bonus opportunity for our NEOs in 2017.

In determining target total equity compensation for our NEOs, the Committee reviewed information provided by Radford on the equity compensation levels for our NEOs relative to our peer group. The Committee has historically aimed to grant aggregate equity awards in the 50th to 75th percentile range compared to the peer group in order to emphasize equity-based compensation over cash compensation. For 2017, Radford initially provided the Committee with information on the level of equity awards that would need to be made to each executive (on an individual basis) to be in line with the 50th percentile. The Committee then aggregated these proposed individual equity grants to establish an "equity pool" for executives. The Committee, with input from our CEO, then allocated the equity pool to the individual executives taking into account a number of the subjective factors discussed above, including retention concerns and individual performance. Thus, certain of our executives received grants above the 50th percentile range while others received grants below the 50th percentile range. Our CEO was not involved in the process of determining his own equity grants. The Committee determined to split the equity grants between PSUs that have a performance-based vesting condition, and time-based options that will only have value to the executives if the price of our common stock increases over time. We believe these grants reflect our strong pay-for-performance philosophy.

John Onopchenko⁽¹⁾	\$400,000	Not applicable

(1) Mr. Onopchenko joined us as Chief Operating Officer on October 30, 2017. His base salary was generally determined based upon a market survey provided by Radford that was specific to his title and expected role and responsibilities.

2017 Cash Bonus Plan Awards

The following table provides summary information regarding the cash bonus awards granted to our NEOs during 2017:

Remaining 30% of the overall bonus opportunity based on achievement of pre-determined MBOs, which are individualized for each NEO. Our CEO's bonus opportunity was weighted 100% towards the Corporate Performance Objectives as the Committee believes the CEO is in the best position to directly impact Company performance. Use threshold, target and maximum bonus payout levels to strike appropriate balance between compensation incentives and risks. Target bonuses are typically aligned with the 50th percentile of our peer group companies. The "target" performance objective level is typically in line with the level of Company performance actually projected for each objective, based on our internal forecasts. 	<ul style="list-style-type: none"> Target bonus is set as percentage of base salary for each NEO (no changes to target bonus percentages from 2016). 70% of actual bonus payout is based on achievement of certain Corporate Performance Objectives, which included Financial Objectives and Operational Objectives. Financial Objectives included pre-determined targets relating to (i) global sales, (ii) gross margin and (iii) cash burn rate. Operational Objectives included pre-determined objectives relating to (i) quality scorecard and (ii) risk management. The Committee assigned relative weightings to each of the components of the Corporate Performance Objectives, which are expressed as a percentage of the target cash incentive amount. 30% of actual bonus payout is based on individual achievement of pre-determined MBOs, which generally relate to functional objectives. Achievement of each component of the Corporate Performance Objectives (i) in an amount less than the minimum threshold results in no cash bonus payment with respect to that component, (ii) in an amount equal to the established target, results in a cash bonus payment of 100% of target with respect to that component, (iii) in an amount in excess of the target, results in a greater cash bonus opportunity (subject to a maximum payout for that component). When determining Company achievement relative to the Financial Objectives, the Committee relied upon our 2017 audited financial statements. 	<ul style="list-style-type: none"> Corporate Performance Objectives: With respect to the Corporate Performance Objectives, the Committee determined that the weighted average achievement level was 25% of the target amount. Accordingly, 25% of the Corporate Performance Objective portion of the bonus opportunity was earned. MBOs: With respect to the MBOs, the Committee determined that each NEO achieved their respective MBOs at the target level. Accordingly, 100% of the MBO portion of the bonus opportunity was earned.

Target Cash Bonus Amount

At the beginning of 2017, the Committee established a target bonus amount for each NEO, which is expressed as a percentage of base salary. Both the base salaries and the target bonus percentages for each NEO were unchanged from 2016. For 2017, each of our NEOs was eligible to receive a cash bonus up to a percentage of his base salary as set forth in the following table:

NAME ⁽¹⁾	BASE SALARY	TARGET BONUS PERCENTAGE	TARGET CASH BONUS
John McDermott	\$572,000	100%	\$572,000
Vaseem Mahboob	\$350,000	55%	\$192,500
Robert D. Mitchell	\$390,500	65%	\$253,825
Michael V. Chobotov, Ph.D.	\$300,000	45%	\$135,000

⁽¹⁾ Mr. Onopchenko did not participate in the 2017 cash bonus plan because he did not join us until October 30, 2017. Mr. Onopchenko received a one-time \$100,000 sign-on bonus in 2017 in lieu of a performance bonus.

Performance Objectives

Cash bonuses may be earned under the 2017 cash bonus plan based on our achievement of pre-established Corporate Performance Objectives, and by plan participants based on their individual achievement of pre-determined MBOs. The percentage of the target cash bonus for each NEO that is subject to the Corporate Performance Objectives and the MBOs is set forth in the table below:

NAME	CORPORATE PERFORMANCE OBJECTIVES (% OF BONUS OPPORTUNITY)	MBOs (% OF BONUS OPPORTUNITY)
John McDermott	100%	0%
Vaseem Mahboob	70%	30%
Robert D. Mitchell	70%	30%
Michael V. Chobotov, Ph.D.	70%	30%

Corporate Performance Objectives

The Corporate Performance Objectives comprise 70% of the total bonus opportunity for each of our NEOs (other than our CEO, for whom the Corporate Performance Objectives comprise 100% of the total bonus opportunity). The following table summarizes the individual components of the Corporate Performance Objectives, including the relative weighting of each component; the specific performance levels required to achieve the threshold, target and maximum payouts amounts; and the payout percentages that result from performance at the threshold, target and maximum performance levels.

OBJECTIVE	RELATIVE WEIGHTING OF COMPONENT	THRESHOLD PERFORMANCE LEVELS	PAYOUT PERCENTAGE FOR THRESHOLD PERFORMANCE	TARGET PERFORMANCE LEVELS	PAYOUT PERCENTAGE FOR TARGET PERFORMANCE	MAXIMUM PERFORMANCE LEVELS	PAYOUT PERCENTAGE FOR MAXIMUM PERFORMANCE
Financial Objectives							
Global Sales	60%	\$192M	70%	\$197M	100%	\$212M	200%
Gross Margin	5%	64%	50%	66%	100%	68%	150%
Cash Burn Rate	10%	\$29M	50%	\$24M	100%	\$20M	150%
Operational Objectives							
Quality Scorecard	15%	90	75%	100	100%	110	125%
Risk Management	10%	-	0%	Effective	100%	Effective	100%

Financial Objectives

The portion of the cash bonus opportunity that relates to the Financial Objectives could be earned based on the Company's

actual performance relative to the target amounts established by the Committee.

- Global sales represent 60% of the bonus opportunity within the Corporate Performance Objectives. Achievement of global sales at the threshold amount would result in payment at 70% of target, at the target amount would result in payment at 100% of target, and at the maximum amount would result in payment at 200% of target.
- Gross margin represents 5% of the bonus opportunity within the Corporate Performance Objectives. Achievement of gross margin at the threshold amount would result in payment at 50% of target, at the target amount would result in payment at 100% of target, and at the maximum amount would result in payment at 150% of target.
- Cash burn rate represents 10% of the bonus opportunity within the Corporate Performance Objectives. Achievement of a cash burn rate at the threshold amount would result in payment at 50% of target, at the target amount would result in payment at 100% of target, and at the maximum amount would result in payment at 150% of target.

For performance levels in between the threshold and target amount, or between the target and maximum amount, the Committee adopted a sliding scale to determine the payout amount for that component. The Committee determined our actual achievement of the Corporate Performance Objectives by reference to our audited financial statements for 2017.

Operational Objectives

The portion of the cash bonus opportunity that relates to the Operational Objectives could be earned based on the Company's ability to meet specified quality and risk management goals.

- Achievement against our quality scorecard represents 15% of the bonus opportunity within the Corporate Performance Objectives. Achievement at the threshold amount would result in payment at 75% of target, at the target amount would result in payment at 100% of target, and at the maximum amount would result in payment at 125% of target.
- With respect to the risk management goal, 10% of the bonus opportunity within the Corporate Performance Objectives could be achieved if the goal is met at 100% of target. No payment results if the goal is not met at 100%, and 100% is the maximum amount that can be achieved with respect to this component.

Management by Objectives (MBOs)

The MBOs comprise 30% of the total bonus opportunity for each of our NEOs (other than our CEO). These objectives are established by the Committee and communicated to our NEOs and individualized to each NEO based on title and responsibility level. In particular, for 2017 the MBOs related to functional and cross-functional objectives designed to promote achievement of the Corporate Performance Objectives, including financial management goals, enterprise risk management objectives, product development milestones and leadership initiatives. The Committee did not establish any MBOs for our CEO, as his cash bonus opportunity is based 100% on the achievement of the Corporate Performance Objectives.

Calculation of Bonus Payout

Consistent with the application of the bonus payout formula described above, and in furtherance of the Company's pay-for-performance philosophy, the Committee determined that 25% of the Corporate Performance Objective portion of the bonus opportunity was earned, which reflects that:

- we did not achieve the global sales objective at the threshold amount;
- we achieved the gross margin objective between the target and maximum amount;
- we achieved the cash burn rate objective at approximately the target amount;
- we did not achieve the quality scorecard at the threshold amount; and
- we achieved the risk management objective at the target/maximum amount.

As a result, each of our NEOs (other than our CEO) earned 25% of the 70% of the total bonus opportunity under the 2017 cash bonus plan that was based on achievement of the Corporate Performance Objectives. Our CEO earned 25% of the 100% of his total bonus opportunity that was based on achievement of the Corporate Performance Objectives.

In addition, the Committee determined that the MBOs were achieved by each of our NEOs (other than our CEO) at the target level, which reflects the successful execution of several critical management initiatives. As a result, each of our NEOs (other than our CEO) earned 100% of the 30% of the total bonus opportunity under the 2017 cash bonus plan that was based on achievement of the MBOs.

The actual payments made to each NEO pursuant to the 2017 cash bonus plan are set forth in the “Non-Equity Incentive Plan” column of the Summary Compensation Table.

2017 Performance-Based Restricted Stock Units

The following table provides summary information regarding the PSUs granted to our NEOs during 2017:

The “target” performance level is typically in line with the level of Company performance projected for the objective. Achievement above the target level will increase the number of shares subject to vesting, up to a maximum of 150% of the underlying shares. Generally, an NEO must be in our employ at the time we achieve a performance milestone in order to receive the benefit of vesting under a PSU. When determining our achievement relative to the performance milestone, the Committee relied upon our 2017 audited financial statements. 	<ul style="list-style-type: none"> For 2017, the global sales threshold level was \$190M; the target level was \$200M; and the maximum level was \$205M. 2017 global sales was approximately \$181M. Since the 2017 global sales threshold level was not achieved, the awards were not earned and were forfeited.

2017 Time-Based Stock Options

The following table provides summary information regarding the options granted to our NEOs during 2017:

As discussed in the section of this proxy statement titled "*Potential Payments Upon Termination or Change in Control*" below, the vesting of certain equity awards described above may be accelerated under certain circumstances.

Employee Benefits

The following table provides summary information regarding the key employee benefits granted or paid to our NEOs during 2017:

Employee Benefits <i>Guaranteed • Other</i>

We do not provide for matching contributions under the 401(k) plan. • Participation in our ESPP for eligible employees, including our NEOs. No acceleration of the vesting of any outstanding equity awards would occur. • In the event of an involuntary termination upon, or within 24 months following, a change in control, our NEOs will receive: (i) a cash severance payment in an amount equal to 1.5 times base salary and target bonus for the year in which the termination occurs, (ii) a cash payment in an amount equal to the target bonus for the year in which the termination occurs, and (iii) continued health insurance benefits for 18 months following termination. In addition, all outstanding equity awards will vest without regard to a termination of employment.

For additional information about the severance and change of control provisions in our employment agreements, see the section entitled "*Potential Payments upon Termination or Change in Control*".

Other Compensation-Related Topics

Role of CEO in Compensation Decisions

The Committee solicits the input of our CEO in determining compensation for our NEOs other than himself, particularly with respect to salary, cash bonus opportunity and equity awards. While our CEO participates in the deliberations regarding compensation for our other NEOs, he does not participate in, and is not present at, any deliberations regarding his own compensation. The Committee considers the information provided by our CEO, as well as information provided by Radford, to make compensation decisions for our NEOs.

Compensation Risk Considerations

In assessing our overall compensation policies and practices, the Committee also considers how such policies and practices may encourage risk-taking by employees. The Committee conducts a compensation risk analysis at least annually, but also takes into account compensation-related risks each time it grants compensation awards throughout the year. In conducting these assessments, the Committee considers a number of factors including the following:

- Our compensation program consists of both guaranteed pay and at-risk pay, and the Committee reviews this mix annually.
- Peer group and industry compensation data is reviewed regularly to ensure alignment with our compensation program and market competitiveness.
- We seek to pay our executives' target total compensation at the 50th percentile compared to our peer group.
- Our performance-based awards are earned based on the achievement of multiple Company and individual performance objectives.
- Our performance-based awards are subject to maximum award amounts to limit the potential compensation amount associated with any particular award.
- Our executive compensation program encourages executive retention through long-term vesting provisions.
- We have adopted stock ownership policies, which encourage executives to have a significant, long-term equity position in our Company.
- Our cash and equity incentive awards are subject to our Clawback Policy.
- Our Insider Trading Policy prohibits our NEOs and other executive officers from hedging the economic interest in our securities, and from pledging our securities.
- Our severance and change in control benefits are designed to attract and retain executives without providing excessive benefits.

In considering these matters, the Committee concluded that it does not believe that our compensation program is reasonably likely to have a material adverse effect on us.

Tax and Accounting Considerations

Among the factors it considers when making executive compensation decisions, the Committee considers the anticipated tax and accounting impact to us (and to our executives) of various payments, equity awards and other benefits.

The Committee considers the impact of the provisions of Section 162(m) of the Code, as amended by the Tax Cuts and Jobs Act, or TCJA. That section generally limits the deductibility of compensation paid by a publicly-held company to "covered employees" for a taxable year to \$1.0 million. Effective for taxable years beginning on and after January 1, 2018, "covered employees" generally include our CEO, CFO and other highly compensated executive officers. Effective for taxable years beginning prior to January 1, 2018, an exception to this deduction limit applied to "performance-based compensation," such as cash incentive and stock option awards, that satisfied certain criteria. This exception to the Section 162(m) deduction limit for "performance-based compensation" was repealed by the TCJA. Thus, except for certain "performance-based compensation" payable pursuant to written contracts that were in effect on November 2, 2017 and that are not modified in any material respect on or after that date, effective

for taxable years beginning on and after January 1, 2018 our tax deduction with regard to compensation of “covered employees” is limited to \$1.0 million per taxable year with respect to each executive officer. With respect to cash and equity awards that were in effect on November 2, 2017, and that are not modified in any material respect on or after that date, the Committee is mindful of the benefit to us and our stockholders of the full deductibility of compensation and have taken steps so that both the cash incentive and stock option awards that we granted may qualify for deductibility under Section 162(m) of the Code. However, awards that we granted that were intended to qualify as “performance-based compensation” may not necessarily qualify for such status under Section 162(m) of the Code. With respect to cash incentive and equity awards that we may grant in the future, we do not anticipate that the \$1.0 million deduction limitation set forth in Section 162(m) of the Code will have a material impact on our results of operations.

The Committee also considers the impact of Section 409A of the Code, and in general, our executive plans and programs are designed to comply with the requirements of that section so as to avoid possible adverse tax consequences that may result from noncompliance.

Our change in control and severance arrangements do not provide for excise tax gross-up payments.

(1) The amounts in these columns represent the potential payouts under our 2017 cash bonus plan based on the achievement of pre-determined Company and individual performance objectives. For the actual 2017 cash bonuses earned by our NEOs, see the "Summary Compensation Table."

(2) The share amounts in these columns represent the potential number of PSUs that could have vested based on the achievement of a pre-determined Company performance objective relating to 2017 global sales. Because the threshold level of performance was not achieved, the PSUs were not earned and were forfeited. See the section entitled "2017 Performance-Based Restricted Stock Units" for additional information.

(3) The amount in this column for Mr. Mahboob reflects a retention grant of time-based RSUs that vest as to 50% of the shares 18 months following the grant date, and as to the remaining shares on the third anniversary of the grant date. The amount in this column for Mr. Onopchenko reflects

the grant of PSUs. Annual performance milestones for the PSUs are expected to be established. Regardless of whether the performance milestones are met, the PSUs will vest in full on the fourth anniversary of the grant date.

(4) The amounts in this column represent the grant of time-based stock options. The options vest in equal monthly installments over 48 months, such that all options may become fully vested upon the fourth anniversary of the grant date.

(5) Stock options are granted with an exercise price equal to the closing price of our common stock on the grant date.

(6) The grant date fair value of options is equal to the Black Scholes value on the grant date, multiplied by the number of shares of our common stock underlying the options. The grant date fair value of RSUs and PSUs is equal to the closing price of our common stock on the grant date, multiplied by the number of shares of our common stock underlying the RSUs or PSUs, as applicable.

PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Employment Agreements

We generally enter into employment agreements with each of our NEOs. Our current employment agreements with our NEOs generally provide that in the event of a separation from service due to termination by us other than for cause, death or disability, or the NEO's resignation for good reason, which we refer to collectively as an "involuntary termination", prior to a change in control of our Company, such NEO will, among other things, receive (i) the portion of his then-current base salary which accrued through the date of termination, (ii) payments for any unused vacation and reimbursement expenses, which were accrued through the date of termination, (iii) a cash severance payment in an amount equal to six months of his then-current base salary (or nine months in the case of Dr. Chobotov), payable in a lump sum within 60 days following termination, (iv) a prorated cash payment equal to the bonus for which he would be eligible for the year in which such termination occurred, payable in a lump sum within 60 days following termination, (v) continued health insurance benefits for six months following termination and (vi) payment for reasonable outplacement services for 12 months following termination, in an aggregate amount not to exceed \$10,000. No equity awards held by Mr. Mahboob, Dr. Chobotov or Mr. Onopchenko, will be subject to any additional or accelerated vesting upon an involuntary termination prior to a change in control.

In the event of an involuntary termination upon or within 24 months following a change in control, the NEO will be entitled to receive, in addition to items (i), (ii) and (vi) above, (a) a cash severance payment in an amount equal to 1.5 times his then-current base salary and his target bonus (as defined in the relevant employment agreement), payable in a lump sum within 60 days following termination, (b) a cash payment equal to his target bonus for the year in which the termination occurs, payable in a lump sum within 60 days following termination, and (c) continued health insurance benefits for 18 months following termination.

In addition, upon a change in control transaction, the employment agreements provide that for accelerated vesting of all outstanding equity awards regardless of whether a termination of employment occurs.

McDermott Severance Agreement

It is expected that Mr. McDermott will be stepping down from his role as our CEO no later than June 30, 2018, or his separation date, but he currently remains in that role while we seek a successor. In connection with Mr. McDermott's separation from our Company, we entered into a Severance Agreement and General Release with Mr. McDermott on February 21, 2018, or the McDermott Severance Agreement. The McDermott Severance Agreement provides that Mr. McDermott will continue to provide us consulting support pursuant to an Independent Contractor Agreement, or the McDermott Contractor Agreement, effective as of his separation date, pursuant to which we will pay Mr. McDermott a monthly consulting fee of \$2,000.

The McDermott Severance Agreement provides that Mr. McDermott will, among other things, receive (i) any salary that has accrued but was not paid as of his separation date, (ii) payment for unused vacation days and reimbursement expenses which were accrued as of his separation date, (iii) a cash severance payment in an amount equal to 18 months of his base salary, payable in a lump sum within 60 days following his separation date (iv) a prorated cash payment equal to the target bonus for the 2018 calendar year for which he is eligible, payable at the same time as bonuses, if any, are paid to our other executive officers (no later than March 15, 2019) (v) accelerated vesting of certain previously granted restricted stock awards, (vi) continued vesting and exercisability of certain previously issued stock options, subject to certain conditions, (vii) a cash payment representing the cost of group medical insurance coverage for up to 18 months following his separation date and (viii) payment for reasonable outplacement services for 12 months following his separation date, in an aggregate amount not to exceed \$10,000. In addition, the McDermott Severance Agreement provides that upon a change in control which occurs during the term of the McDermott Contractor Agreement (or in some cases through the third anniversary of his separation date), Mr. McDermott will receive full vesting acceleration of certain previously issued stock options.

Mr. McDermott's receipt of the aforementioned payments and benefits is conditioned upon, among other things, (i) the effectiveness of a general release of claims in favor of us (and certain affiliates and related parties) that is included within the McDermott Severance Agreement and (ii) Mr. McDermott's compliance with the terms of the McDermott Contractor Agreement, McDermott Severance Agreement and related Proprietary Information and Inventions Agreement effective as of his separation date, including certain non-competition, non-solicitation, non-disparagement and other standard covenants included therein.

Mitchell Severance Agreement

In connection with Mr. Mitchell's separation from our Company effective December 31, 2017, or his separation date, we entered into a Severance Agreement and General Release with Mr. Mitchell on December 15, 2017, or the Mitchell Severance Agreement. The Mitchell Severance Agreement provides that Mr. Mitchell will, among other things, receive (i) a cash severance payment in an amount equal to six months of his base salary, payable in a lump sum in February 2018, (ii) a cash payment of the earned amount of Mr. Mitchell's target bonus for the 2017 calendar year, as will be determined and become payable in a lump sum in February 2018, (iii) payment for unused vacation days which were accrued as of his separation date, payable in a lump sum in February 2018 and (iv) continued health insurance coverage through June 30, 2018.

Pursuant to the terms of the Mitchell Severance Agreement, we also entered into an Agreement for Independent Contractor Services with Mr. Mitchell, or the Mitchell Contractor Agreement, whereby Mr. Mitchell will perform services relating to our clinical trials and related matters during the period from January 1, 2018 through December 31, 2018. Subject to Mr. Mitchell's continued compliance with the covenants in the Mitchell Contractor Agreement, Mr. Mitchell's time-based stock options and restricted stock unit awards will continue to vest until termination of the Mitchell Contractor Agreement, and his performance-based restricted stock awards will continue to vest in accordance with their terms. In addition, the Mitchell Severance Agreement provides that upon a change in control which occurs during the term of the Mitchell Contractor Agreement, and subject to continued compliance with the covenants set forth in the Mitchell Contractor Agreement, Mr. Mitchell will receive full vesting acceleration of his outstanding equity awards.

Also on December 15, 2017, we entered into a second amendment to Mr. Mitchell's Restricted Stock Award Agreement originally dated December 10, 2010, for the purpose of amending the performance-based vesting provisions related to achievement of specified product development milestones applicable to certain of the shares underlying the agreement.

Severance and Change in Control Payments

The following table summarizes the amounts that would become payable to each of our NEOs, pursuant to the employment agreements described above, assuming each NEO experienced an involuntary termination as of December 31, 2017, both prior to and after the occurrence of a change in control of our Company.

⁽¹⁾ Mr. McDermott will be stepping down from his role as our CEO no later than June 30, 2018. This table reflects the amounts that would have become payable to Mr. McDermott as of December 31, 2017 based on the terms of his prior Employment Agreement. In connection with Mr. McDermott's separation from the Company, we entered into a Severance Agreement and General Release with Mr. McDermott on February 21, 2018.

⁽²⁾ "Prior to Change of Control" Mr. McDermott was entitled to his base salary for 18 months. "After Change of Control" Mr. McDermott was entitled to his base salary for 24 months.

⁽³⁾ "Prior to Change of Control" equals 100% of the target bonus and assumes the target level of performance was achieved and that the executive was terminated on December 31, 2017. "After Change of Control" equals 100% of the target bonus, which would have become payable regardless of Company performance relative to the target performance level.

⁽⁴⁾ "Prior to Change of Control" there were no outstanding awards that would accelerate or continue to vest following the date of termination. "After Change of Control" includes the fair market value of all unvested equity awards outstanding as of December 31, 2017, as they will all vest immediately upon a change of control. Fair market value was calculated based on the number of equity awards for which vesting would have been accelerated, multiplied by the closing price of our common stock on the last trading day of 2017, which was \$5.35 per share (and for options is calculated as the difference between such closing price and the relevant exercise prices). The equity awards do not include reference to the 2017 PSUs since the performance condition was not achieved at the threshold level and the awards were not earned and were forfeited effective as of December 31, 2017.

⁽⁵⁾ "Prior to Change of Control" represents continuation of COBRA payments for 18 months. "After Change of Control" represents continuation of COBRA payments for 24 months.

⁽⁶⁾ "Prior to Change of Control" the executive is entitled to his base salary for six months. "After Change of Control" the executive is entitled to his or her base salary for eighteen months.

⁽⁷⁾ "Prior to Change of Control" represents continuation of benefits through COBRA payments for six months. "After Change of Control" represents continuation of benefits through COBRA payments for 18 months.

(8) “Prior to Change of Control” the executive is entitled to his base salary for nine months. “After Change of Control” the executive is entitled to his or her base salary for 18 months.

(9) Mr. Onopchenko joined us in October 2017. “Prior to Change of Control” equals a prorated portion of 100% of his target bonus. “After Change of Control” equals 100% of the target bonus. Mr. Onopchenko actually received a one-time \$100,000 sign-on bonus in 2017 in lieu of a performance bonus, however his target bonus has been used for purposes of this table as it more accurately reflects the future payments we may receive upon a change in control.

CEO PAY RATIO

Presented below is the ratio of annual total compensation of our CEO to the annual total compensation of our median employee (excluding our CEO). The ratio presented below is a reasonable estimate calculated in a manner consistent with applicable SEC rules.

In identifying our median employee, we calculated the annual total cash compensation of each employee as of December 31, 2017. For these purposes, annual total cash compensation included base salary or hourly wages, cash incentive awards, and commissions, as well as comparable elements of cash compensation paid in non-U.S. jurisdictions. These amounts were calculated using internal human resources records. Compensation amounts were annualized for new hire permanent employees who did not work for the entire year. We did not apply any cost-of-living adjustments as part of the calculation.

We selected the median employee from among 648 full-time, part-time, temporary and seasonal workers who were employed and not on leaves of absence as of December 31, 2017. As of that date, our total number of employees was 655, of which 596 were U.S. employees and 59 were non-U.S. employees. However, as permitted by applicable SEC rules, we excluded three employees from Thailand, two employees from Singapore and two employees from Canada (which constitute all of our employees from those jurisdictions) pursuant to the *de minimis* exemption for foreign employees. Except for these foreign employees, we did not exclude from the calculation of the median employee any other employees pursuant to any other permitted exceptions.

As determined in accordance with applicable SEC rules, and consistent with the disclosure set forth in the Summary Compensation Table, the annual total compensation for our CEO for 2017 was \$2,011,907. The annual total compensation for our median employee for 2017 was \$102,476. Among other items, these amounts include base salary, cash incentive awards and equity-based compensation (valued based on the grant date fair value of awards granted during 2017).

As calculated in this manner, the ratio of our CEO’s total compensation for 2017 to our median employee’s total compensation for 2017 is approximately 20 to 1.

DIRECTOR COMPENSATION PROGRAM

Pursuant to our director compensation program, our non-employee directors each receive an annual cash retainer for service on our board of directors and an additional cash retainer for service on each committee on which the director is a member. The chairman of each committee receives a higher cash retainer for such service (which is in lieu of, and not in addition to, committee member cash retainers). In addition, on the date of each annual meeting, each non-employee director who will continue in office following the annual meeting receives an RSU award with the number of shares subject to the award determined based on the closing price on the grant date. The Lead Independent Director and/or Chairman of the Board typically receives an additional RSU award. The RSU awards generally vest as to 100% of the shares on the one year anniversary of the grant date.

Historically, the annual cash fees paid and RSU awards granted to non-employee directors for service on our board of directors, and for service on each committee on which the director is a member, were as follows:

Position	Annual Fees Paid for Membership	Annual Fees Paid for Chair Position	Annual RSU Awards
Board of Directors	\$ 40,000	\$ —	\$ 100,000
Lead Independent Director / Chairman of the Board	\$ —	\$ —	\$ 50,000
Audit Committee	\$ 9,000	\$ 20,000	\$ —
Compensation Committee	\$ 6,000	\$ 13,000	\$ —
Governance Committee	\$ 5,000	\$ 9,000	\$ —

For 2017, in an effort to further align the interests of our directors with those of our stockholders, and to preserve cash in light of our size and stage of growth, our Compensation Committee approved a change to our director compensation program

which resulted in a 10% decrease in the annual cash fees paid for service on our board and on each committee, and a proportionate 10% increase in the value of the annual RSU award granted to each non-employee director.

In light of the change to our director compensation program, the current annual fees paid and awards granted to non-employee directors for service on our board of directors, and for service on each committee on which the director is a member, is as follows:

Position	Annual Fees Paid for Membership	Annual Fees Paid for Chair Position	Annual RSU Awards
Board of Directors	\$ 36,000	\$ —	\$ 110,000
Lead Independent Director/ Chairman of the Board	\$ —	\$ —	\$ 55,000
Audit Committee	\$ 8,100	\$ 18,000	\$ —
Compensation Committee	\$ 5,400	\$ 11,700	\$ —
Governance Committee	\$ 4,500	\$ 8,100	\$ —

In addition, each person who first becomes a non-employee director, whether elected by our stockholders or appointed by our board of directors, will automatically be granted an RSU award in the amount of \$200,000, with the number of shares subject to the award determined based on the closing price on the grant date. The RSU award typically vests as to 25% of the shares on each anniversary of the grant date, such that all of the shares are vested on the fourth anniversary of the grant date.

Non-employee directors also receive reimbursement for certain travel expenses and other out-of-pocket costs.

Director Compensation Paid in 2017

The following table summarizes the compensation paid to each of our non-employee directors during the fiscal year ended December 31, 2017.

⁽²⁾ The amounts shown reflect the grant date fair value of equity awards computed in accordance with FASB ASC Topic 718. For a discussion of valuation assumptions used to determine the grant date fair value of the equity awards, see Note 4 to our consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 2017. In accordance with applicable SEC rules, the amounts reported exclude the impact of estimated forfeitures related to service-based vesting conditions.

PROPOSAL NO. 2

NON-BINDING ADVISORY VOTE ON THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS

Background

In accordance with the applicable SEC rules, we are providing our stockholders with the opportunity to cast a non-binding advisory vote on the compensation of our named executive officers, or a “say-on-pay” proposal, as described below. We believe it is appropriate to seek the views of our stockholders on our executive compensation program.

“Say-on-Pay” Vote

We are committed to our stockholder outreach efforts, including soliciting stockholder feedback on our executive compensation program. This is motivated, in part, by the results of our “say-on-pay” vote at our 2017 annual meeting, at which our stockholders did not approve, by advisory vote, the compensation of our named executive officers for 2016, which was an unexpected change as compared to our high approval rates in prior years. The results of the “say-on-pay” vote in 2017 caused our management team to acknowledge an even greater need for stockholder engagement as a means to facilitate a dialogue with stockholders, and improve overall stockholder understanding of and support for our executive compensation program. In response to feedback from our stockholders during our outreach efforts, we have made a number of significant changes to our executive compensation program, including a heightened focus on our pay-for-performance philosophy and certain proposed amendments to our 2015 Plan.

2017 Executive Compensation Highlights

Our overarching executive compensation goals are to align our compensation program to our business strategy, and attract and retain executives with the background and experience required to lead us forward. For 2017, we emphasized a strong pay-for-performance alignment by providing a significant portion of the overall compensation opportunity for our named executive officers in the form of performance-based compensation, which is correlated with the achievement of specific performance objectives. We believe our 2017 compensation program design was successful in striking the appropriate balance between achieving pay-for-performance alignment, and supporting retention during this critical stage of our growth.

The specific components of our executive compensation program that highlight its effectiveness are as follows:

- **Significant Portion of Total Compensation is At-Risk.** A significant portion of an executive’s total compensation opportunity in 2017 was provided in the form of compensation that was at-risk rather than guaranteed. Our executive compensation program included performance-based cash bonus plan awards, performance-based restricted stock units, and time-based stock options. The value of each of these awards was subject to the achievement of specific performance conditions and/or was tied to the market price of our common stock.
- **2017 Cash Bonus Plan Awards Paid Out Significantly Below Target.** For 2017, 70% of the actual cash bonus opportunity was based on achievement of pre-determined corporate financial and operational objectives. The failure to achieve the target levels of performance with respect to certain of the objectives resulted in significantly reduced bonus payouts to executives compared to both the 2017 target bonus amounts and the actual bonus amounts paid in 2016.
- **No Named Executive Officers Received Base Salary Increases.** While the Compensation Committee determined that base salary increases for 2017 would have been warranted based on a peer group review, our leadership team elected not to accept base salary increases in order to preserve financial resources.
- **Performance-Based Restricted Stock Units Forfeited.** The performance-based restricted stock units were designed to vest based upon our achievement relative to a global sales target for 2017. Since the threshold level was not achieved, the awards were not earned and were forfeited.
- **Time-Based Stock Options Require Long-Term Vesting to Promote Retention.** For 2017, a portion of the equity awards granted to our executives were time-based option awards, which vest over a four year period subject to continued employment. Options inherently contain a performance component because the awards only have value to the recipient to the extent the value of our common stock increases during the option term. In addition, time-based awards promote executive retention because they vest over a long-term service period.
- **Amendments to 2015 Plan Reflect Sound Governance Practices.** Our board of directors has approved changes to our 2015 Plan that reflect our commitment to sound governance practices, including imposing a minimum vesting period

of at least 12 months for awards granted under our 2015 Plan following the amendment date, subject to certain limitations, and eliminating our ability to pay dividends on unvested shares of our common stock granted under our 2015 Plan.

For additional information about our executive compensation program, see the section entitled "Compensation Discussion and Analysis" and the related tables and footnotes.

Proposal

We are asking our stockholders to indicate their support for our executive compensation program as described in this proxy statement. Accordingly, we are asking our stockholders to vote "FOR" the following resolution at the annual meeting:

"RESOLVED, that the stockholders approve, on a non-binding advisory basis, the compensation of the named executive officers of Endologix, Inc. as disclosed in the Compensation Discussion and Analysis section of the proxy statement for the 2018 Annual Meeting of Stockholders, and the related compensation tables and narrative disclosures."

The results of this advisory vote are not binding upon us. However, our Compensation Committee, which is responsible for designing and administering our executive compensation program, values the opinions expressed by stockholders in their vote on this proposal, and will continue to consider the outcome of the vote when making future executive compensation decisions.

Interest of Certain Persons in or Opposition to Matter to be Acted Upon

Other than as named executive officers in respect of whose compensation this non-binding advisory vote on executive compensation will be held, none of the following persons has any substantial interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in this proposal: (i) any person who has been one of our directors or executive officers at any time since the beginning of our last fiscal year, (ii) the nominee for election as a Class II director, or (iii) any associate of any of the foregoing persons.

Required Vote

The affirmative vote of a majority of the outstanding shares of our common stock present in person or represented by proxy and entitled to vote at the annual meeting is required to approve, on a non-binding advisory basis, the compensation of our named executive officers as set forth in this proxy statement.

Recommendation of our Board of Directors

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT OUR STOCKHOLDERS VOTE "FOR" THE APPROVAL, ON A NON-BINDING ADVISORY BASIS, OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS AS SET FORTH IN THIS PROXY STATEMENT.

PROPOSAL NO. 3

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

KPMG audited our financial statements for the fiscal year ended December 31, 2017.

Although we are not required to submit the appointment of our independent registered public accounting firm for stockholder approval, if our stockholders do not ratify the appointment of KPMG, our Audit Committee may reconsider the appointment of KPMG. Even if the appointment is ratified, our Audit Committee may direct the appointment of a different independent registered public accounting firm at any time during the year if our Audit Committee determines that the change would be in the best interests of our Company or those of our stockholders.

Representatives of KPMG are expected to be present at the annual meeting with the opportunity to make a statement if they desire to do so, and are expected to be available to respond to appropriate questions.

PROPOSAL NO. 4

AMENDMENT TO AMENDED AND RESTATED CERTIFICATE OF INCORPORATION

We are asking our stockholders to approve an amendment to our Charter to increase the number of authorized shares of our common stock from 135,000,000 to 170,000,000. On April 12, 2018, our board of directors determined that it is advisable and in our best interests and those of our stockholders to increase our authorized shares, and has voted to recommend that our stockholders adopt an amendment to our Charter effecting the proposed increase. The number of authorized shares of our preferred stock will remain at 5,000,000 shares.

If our stockholders approve this proposal, we will amend the first four sentences of Article IV, Section (A) of our Charter to read as follows:

“This corporation is authorized to issue two classes of stock, to be designated, respectively, “Common Stock” and “Preferred Stock.” The total number of shares that this corporation is authorized to issue is one hundred seventy five million (175,000,000). The number of shares of Preferred Stock authorized to be issued is five million (5,000,000), par value \$0.001 per share. The number of shares of Common Stock authorized to be issued is one hundred seventy million (170,000,000), par value \$0.001 per share.”

As of April 16, 2018, of the 135,000,000 currently authorized shares of our common stock, 83,996,817 shares of our common stock were issued and outstanding and 40,665,540 shares of our common stock were reserved for issuance. Shares reserved for issuance included 11,408,549 shares reserved for issuance upon the exercise of outstanding stock options, 2,079,392 shares reserved for issuance pursuant to outstanding restricted stock units, 1,087,526 shares reserved for issuance pursuant to future grants under our 2015 Plan, 761,603 shares reserved for issuance and 229,312 shares pending issuance under our 2006 ESPP, up to 3,333,333 shares that we may be required to issue to the former stockholders of Nellix as contingent consideration pursuant to the terms of the merger agreement with Nellix and the other parties thereto, 35,094 warrants assumed in connection with the merger with TriVascular, 6,470,000 warrants exercisable by Deerfield Management Company, L.P. in connection with our term loan agreement, and 15,260,731 shares initially issuable in connection with conversion of our outstanding convertible senior notes. As a result, as of April 16, 2018, we had only 10,487,643 shares of our common stock available for other corporate purposes.

Certificate of Amendment

The material terms of the amendment to our Charter are described above. This summary is qualified in its entirety by reference to the complete text of the Certificate of Amendment to our Charter, or the Certificate of Amendment. You are urged to read the actual text of the Certificate of Amendment, which is appended to this proxy statement as [Appendix A](#) and incorporated herein by reference.

Reasons for the Amendment

Our board of directors is recommending this increase in the authorized shares of our common stock primarily to give us the flexibility to issue shares of our common stock to prudently manage our business affairs. For example, the additional authorized shares would be available to: raise capital through the sale of our common stock or securities convertible into or exchangeable for shares of our common stock; attract and retain employees through the issuance of additional securities under our equity compensation plans; refinance or restructure our current or future borrowings through the issuance of shares of our common stock or securities exercisable or convertible into shares of our common stock; acquire other businesses, products, technologies or services in exchange for shares of our common stock; and pursue other transactions and corporate purposes, as determined by our board of directors from time to time to be necessary or desirable. We are seeking the amendment to our Charter to provide us with the flexibility we need to pursue strategic opportunities, while also providing us with the leverage necessary to negotiate terms that are most favorable to us and our stockholders.

Our board of directors believes that, unless the proposal to amend our Charter is approved, the limited number of authorized shares could restrict our ability to manage our capital raising needs, attract and retain employees, refinance or restructure our borrowings, or pursue other opportunistic transactions. Our board of directors further believes that increasing the total number of shares of authorized common stock will provide us with the leverage necessary to negotiate terms that are most favorable to us and our stockholders, and give us greater flexibility in responding quickly to advantageous opportunities without further approval of our stockholders (unless stockholder approval is required by applicable NASDAQ Listing Rules). Finally, our board of directors believes that the total number of shares authorized by the proposed amendment, relative to the

number of shares of our common stock outstanding and reserved for issuance, is generally consistent with the number of shares authorized by other companies of our size and stage of development.

Rights of Additional Authorized Shares

Any authorized shares of our common stock, if and when issued, would be part of our existing class of our common stock and would have the same rights and privileges as the shares of our common stock currently outstanding. Our stockholders do not have preemptive rights with respect to our common stock, nor do they have cumulative voting rights. Accordingly, should we issue additional shares of our common stock, existing stockholders would not have any preferential rights to purchase any of such shares, and their percentage ownership of our then-outstanding common stock would be reduced.

Potential Effects of Amendment

The proposed amendment could, under certain circumstances, have an anti-takeover effect, although that is not our intention with this proposal. For example, in the event of a hostile attempt to take control of the Company, it may be possible for us to impede the attempt by issuing shares of our common stock, which would dilute the voting power of the other outstanding shares and increase the potential cost to acquire control of the Company. The proposed amendment therefore may have the effect of discouraging unsolicited takeover attempts, potentially limiting the opportunity for our stockholders to dispose of their shares at a premium, which is often offered in takeover attempts, or that may be available under a merger proposal. The ability of our board of directors to sell shares of common stock in this manner without further stockholder approval would be subject to the NASDAQ Listing Rules, which generally require stockholder approval for a transaction other than a public offering that results in a 20% or more increase in the number of shares outstanding. However, as of the date of this proxy statement, our board of directors is not aware of any attempt to take control of us, and our board of directors has not presented this proposal with the intention that it be utilized as an anti-takeover mechanism.

Effectiveness of Amendment and Board of Director's Reservation of Right

If the proposed amendment is approved and adopted by the stockholders at the annual meeting, it will become effective upon the filing of the Certificate of Amendment with the Secretary of State of the State of Delaware. Our board of directors reserves the right, notwithstanding stockholder approval and without further action by our stockholders, to elect not to proceed with filing the amendment to our Charter if, at any time prior to filing thereof, our board of directors, in its sole discretion, determines that it is no longer advisable or in our best interests. The amendment to our Charter is subject to revision for such changes as may be required by the Secretary of State of the State of Delaware and any other changes consistent with this proposal that we may deem necessary or appropriate.

Required Vote

The affirmative vote of a majority of the outstanding shares of our common stock entitled to vote at the annual meeting is required to approve the amendment to our Charter.

Recommendation of our Board of Directors

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT OUR STOCKHOLDERS VOTE "FOR" APPROVAL OF THE AMENDMENT TO OUR CHARTER.

PROPOSAL NO. 5

AMENDMENTS TO THE ENDOLOGIX, INC. 2015 STOCK INCENTIVE PLAN

Overview

We are seeking stockholder approval to amend the Endologix, Inc. 2015 Stock Incentive Plan, or the 2015 Plan, to increase the number of shares of our common stock reserved under our 2015 Plan by 500,000 shares, or from 9,800,000 shares to 10,300,000 shares. In addition, although not required to be approved by our stockholders, we are seeking approval of our stockholders to amend our 2015 Plan to: (i) impose a minimum vesting period of at least 12 months for awards granted under our 2015 Plan following the date on which the amendment is adopted; (ii) eliminate our ability to provide for the payment of dividends on unvested shares of our common stock that are subject to outstanding awards granted under our 2015 Plan; and (iii) reference the adoption of our recently-approved Clawback Policy. Our board of directors has approved the amendments to our 2015 Plan, subject to stockholder approval at the Annual Meeting.

Purpose of 2015 Plan

The purpose of our 2015 Plan is to provide us flexibility with respect to our ability to attract and retain the services of qualified employees, officers and directors upon whose judgment, initiative and efforts the successful conduct and development of our business depends, and to provide additional incentives to such persons to devote their effort and skill to our advancement by providing them an opportunity to participate in the ownership of the Company and thereby have an interest in its success and increased value.

Plan Amendments

Our board of directors believes it is in the best interest of our stockholders to seek an increase in the number of shares of our common stock reserved for issuance under our 2015 Plan so that we can continue to motivate and incentivize eligible employees and non-employee directors, fulfill the objectives of our compensation strategy and align the interests of plan participants with those of our stockholders. In particular, our board of directors believes it is important that we seek an immediate increase in authorized shares to allow us to issue additional equity awards during 2018, which our board views as critical to our ability to achieve our compensation objectives and retain our existing officers and employees.

In connection with seeking an increase in the number of authorized shares, our board of directors has approved additional amendments to our 2015 Plan that we believe reflect our commitment to sound governance practices and further limit our compensation-related risks. In particular, our board of directors has approved the following additional changes to our 2015 Plan:

- **Minimum Vesting Requirement:** Impose a minimum vesting period of at least 12 months for awards granted under our 2015 Plan following the date on which the amendment is adopted, subject to certain limitations. This vesting condition will require that the participant receiving the grant remain employed by us for at least 12 months before being able to realize any value from an equity award, thus promoting retention of the participant.
- **No Dividends on Unvested Awards:** Eliminate our ability to provide for the payment of dividends on unvested shares of our common stock that are subject to outstanding awards granted under our 2015 Plan.
- **Clawback Policy:** Reference the adoption of our Clawback Policy, and allow for the inclusion of other clawback, recovery or recoupment provisions in the relevant award agreements, including a reacquisition right upon the occurrence of certain events.

Although we are not required to seek stockholder approval of these additional amendments under our 2015 Plan, or under applicable NASDAQ Listing Rules, we believe it is important to solicit this approval as part of our ongoing stockholder engagement efforts. If our stockholders do not approve this proposal, our board of directors may reconsider the adoption of these amendments. However, our board of directors may also elect to proceed with adopting one or more of the amendments (other than the amendment to increase the number of shares, which requires the approval of our stockholders) if it determines that the amendments would be in the best interests of our Company or those of our stockholders.

Reasons for Requested Share Increase

In considering our recommendation to increase the number of shares of our common stock reserved for issuance under our 2015 Plan by 500,000 shares, our board of directors considered a number of factors, including: the significant reduction in the trading price of our common stock over the past two years, which has caused the majority of our outstanding stock options to be “out-of-

the-money”; the need to retain and incentivize our officers and employees at a critical stage of our growth and at a time when our stock price has been volatile; and our historical and projected equity grant practices.

Notably, the average number of shares underlying equity awards granted by our Compensation Committee on an annualized basis over the past three years (net of shares canceled or forfeited) is approximately 3,800,000 shares, which is generally consistent with the net amount of equity awards we expect to issue under our compensation program in 2018. Accordingly, the 500,000 shares being requested in this proposal reflects only a small portion of the actual number of awards we expect to grant to meet our compensation objectives. However, in seeking approval for this limited number of shares, our board of directors took into account the potential impact of the Exchange Program, for which we are seeking stockholder approval in Proposal 6. Pursuant to the Exchange Program, eligible participants would be entitled to surrender certain out-of-the-money options for cancellation in exchange for a grant of a lesser number of restricted stock units. In determining the requested number of shares, our board of directors assumed the Exchange Program will be adopted by our stockholders and that, based on an assumed 80% participation rate in the program, approximately 2,200,000 shares would be returned to our 2015 Plan and made available for future grant (after taking into account the grant of restricted stock units in exchange for options under the program). However, in the event the Exchange Program is not adopted, or if the rate of participation in the program is significantly lower than we expect, it may be necessary for us to seek stockholder approval for additional shares under our 2015 Plan in order to meet our compensation objectives. Our board of directors also took into account certain additional criteria relating to the potential impact of the amendments to our 2015 Plan on our stockholders. For example, our board of directors considered the amount of the share increase relative to both the total number of shares of our common stock outstanding, as well as our fully-diluted shares outstanding. Our board of directors also took into consideration that virtually all of the stock options granted under our 2015 Plan prior to August 2017 are currently “out-of-the-money” and therefore do not provide any meaningful incentive or retention benefits to our current employees and non-employee directors. In light of the foregoing, our board of directors believes the additional share request to be appropriate and necessary to meet the objectives of our equity compensation program.

Assuming that this proposal is adopted, and further assuming that the Exchange Program is approved and approximately 2,200,000 shares would be returned to our 2015 Plan and made available for future grant (after taking into account the grant of restricted stock units in exchange for options under the program), we estimate the shares authorized for issuance under our 2015 Plan would be sufficient to grant awards for approximately one year. However, our actual share usage is dependent on a number of important variables, including the future trading price of our common stock, our hiring and promotion activity, our retention needs, and market practices within our industry and geographic region. As a result, the share reserve under our 2015 Plan could last for a longer or shorter period of time than we currently expect.

Description of our 2015 Plan (as amended)

The material terms of our 2015 Plan, as amended, are outlined below. This summary is qualified in its entirety by reference to the complete text of our 2015 Plan, as amended. You are urged to read the actual text of our 2015 Plan, as amended, which is appended to this proxy statement as Appendix B and incorporated herein by reference.

General. Our 2015 Plan is an “omnibus” stock plan consisting of a variety of equity vehicles to provide flexibility in implementing equity awards, including incentive stock options, non-qualified stock options, restricted stock awards, stock appreciation rights, stock payment awards, restricted stock units and dividend equivalents. Participants in our 2015 Plan may be granted any one or more of these equity awards, as determined by our board of directors.

Shares Reserved for Issuance. As of April 16, 2018, (i) options exercisable for 4,465,002 shares of our common stock with a weighted average exercise price of \$8.65 and a weighted average remaining term of 5.25 years were outstanding, (ii) time-based restricted stock units covering 1,439,134 shares of our common stock were outstanding, (iii) performance-based restricted stock units covering 404,769 shares of our common stock were outstanding, and (iv) 1,087,526 shares of our common stock were reserved for future grant under our 2015 Plan. If this proposal is adopted, an aggregate of up to 1,587,526 shares of our common stock may be issued under our 2015 Plan, not taking into account any shares that may be returned to the plan and made available for future issuance pursuant to the Exchange Program. If the Exchange Program is adopted by our stockholders, and if an assumed 2,200,000 shares are returned to our 2015 Plan and made available for future grant (after taking into account the grant of restricted stock units in exchange for options under the program), an aggregate of 3,787,526 shares of our common stock would be available for future grant under the plan. This amount is subject to change based on the level of participation in the Exchange Program.

Administration. Our board of directors has delegated administration of our 2015 Plan to our Compensation Committee. The members of our Compensation Committee satisfy the requirements for (i) an “independent director” for purposes of the applicable NASDAQ Listing Rules, (ii) a “non-employee director” for purposes of Rule 16b-3 of the Exchange Act and (iii) an “outside director” under Section 162(m) of Code. Our Compensation Committee has the powers and authority as may be necessary or appropriate to carry out the functions of the administrator. Subject to the express limitations of our 2015 Plan, the administrator has the authority to determine the persons to whom, and the time or times at which, awards may be granted, the number of shares, units or other rights

subject to each award, the exercise, base or purchase price of an award (if any), the time or times at which an award will become vested, exercisable or payable, the performance goals and other conditions, duration and all other terms of an award. The administrator may prescribe, amend and rescind rules and regulations relating to our 2015 Plan. All interpretations, determinations and actions by the administrator in good faith shall be final, conclusive and binding upon all parties. Additionally, to the extent permitted by law, the administrator may delegate to one or more of our officers or directors the ability to grant and determine terms and conditions of awards under our 2015 Plan to certain employees.

Eligibility. Our employees, officers, directors, consultants and other service providers are eligible to receive each type of award available under our 2015 Plan, except that only our employees (including members of our board of directors who are also our employees) are eligible to receive incentive stock options under our 2015 Plan. Our directors and officers are eligible to participate in our 2015 Plan, and have a substantial direct interest in the approval of our 2015 Plan. As of April 16, 2018, approximately 650 persons were eligible to participate in our 2015 Plan.

Types of Awards under our 2015 Plan

Our 2015 Plan includes the following types of equity compensation awards: incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock award, restricted stock units, dividend equivalents and stock payment awards, all of which are described below.

Stock Options. Stock options granted under our 2015 Plan may be either incentive stock options or non-qualified stock options, subject to the provisions of Section 422 of the Code. The exercise price per share of a stock option shall not be less than the fair market value of our common stock on the date the option is granted, provided that if the person to whom an incentive stock option is granted beneficially owns 10% of our outstanding common stock on the date of the grant, the exercise price shall not be less than 110% of the fair market value on the date the option is granted, subject to certain exceptions. A stock option may be subject to such vesting and exercisability requirements as specified by the administrator in an award agreement. Such vesting and exercisability requirements may be based on the continued service of the participant with us for a specified time period (or periods) or on the attainment of specified performance goals established by the administrator in its discretion, or a combination of both. The administrator shall determine the period during which a vested stock option may be exercised, provided that the maximum term of a stock option shall be ten years from the date the option is granted.

Stock Appreciation Rights. A stock appreciation right will entitle the holder, upon exercise or other payment of the stock appreciation right, as applicable, to receive an amount determined by multiplying: (i) the excess of the fair market value of a share of our common stock on the date of exercise or payment of the stock appreciation right over the base price of such stock appreciation right by (ii) the number of shares as to which such stock appreciation right is exercised or paid. Subject to the requirements of Section 409A of the Code, payment of the amount determined under the foregoing shall be made either in cash or in shares of our common stock, as determined by the administrator in its discretion. If payment is made in shares of our common stock, such shares shall be valued at their fair market value on the date of exercise or payment, subject to applicable tax withholding requirements and to the conditions set forth in the award agreement. A stock appreciation right may be subject to such vesting and exercisability requirements as specified by the administrator in an award agreement. Such vesting and exercisability requirements may be based on the continued service of the participant with us for a specified time period (or periods) or on the attainment of specified performance goals established by the administrator in its discretion, or a combination of both. Stock appreciation rights may be granted on a basis that allows for the exercise of the right by the participant or that provides for the automatic payment of the right upon a specified date or event. The base price of a stock appreciation right shall not be less than the fair market value of the shares of our common stock on the date the right is granted.

Restricted Stock. Restricted stock awards are shares issued under our 2015 Plan that are subject to restrictions on transfer and vesting requirements as determined by the administrator. The restrictions imposed on shares granted under a restricted stock award lapse in accordance with the vesting requirements specified in the award agreement. The vesting requirements may be based on the continued service of the participant with us for a specified time period (or periods) or on the attainment of specified performance goals established by the administrator in its discretion, or a combination of both. If the vesting requirements of a restricted stock award are not satisfied, the award will be forfeited and the unvested shares of our common stock subject to the award will be returned to us (or, to the extent the participant paid for the shares of our common stock, we have the right to repurchase such shares from the participant at the original purchase price). Subject to the provisions of our 2015 Plan and the applicable award agreement, the participant has all rights of a stockholder with respect to the shares granted under a restricted stock award, including the right to vote the shares and receive all dividends and other distributions paid or made with respect thereto.

Restricted Stock Units. The value of each restricted stock unit is equal to one share of our common stock on the applicable date or time period of determination, as specified by the administrator. A grant of restricted stock units is subject to such restrictions and conditions as may be determined by the administrator. On the date the award is granted, the administrator determines the vesting requirements with respect to a stock unit award, which is set forth in the award agreement. Vesting requirements may be based on

the continued service of the participant with us for a specified time period (or periods) or on the attainment of specified performance goals established by the administrator, or a combination of both. A restricted stock unit will become payable to a participant at the time or times set forth in the award agreement, which may be upon or following the vesting of the award. Payment of a restricted stock unit award is made in shares of our common stock, and is subject to applicable tax withholding requirements. The participant does not have any rights as a stockholder with respect to the shares subject to a restricted stock unit award until shares of our common stock are delivered to the participant pursuant to the terms of the award agreement.

Stock Payment Awards. A stock payment award may be granted for any valid purpose as determined by the administrator. A stock payment award granted to a participant represents shares of our common stock that are issued without restrictions on transfer and other incidents of ownership and free of forfeiture conditions, except as otherwise provided in our 2015 Plan and the award agreement. The administrator may, in connection with any stock payment award, require the payment of a specified purchase price. Subject to the provisions of our 2015 Plan and the applicable award agreement, upon the issuance of our common stock under a stock payment award the participant has all rights of a stockholder with respect to the shares of our common stock, including the right to vote the shares and receive all dividends and other distributions paid or made with respect thereto.

Dividend Equivalents. A dividend equivalent is a right to receive payments equivalent to the amount of dividends paid by us to holders of shares of our common stock with respect to the number of dividend equivalents held by the participant. The dividend equivalent may provide for payment in our common stock or in cash, or a fixed combination of our common stock or cash, or the administrator may reserve the right to determine the manner of payment at the time the dividend equivalent is payable. Dividend equivalents may be granted only in connection with a grant of restricted stock units and shall be subject to the vesting conditions that govern restricted stock units as set forth in the applicable award agreement. The accrual of dividends or dividend equivalents will only be payable to a participant to the extent that any shares of our common stock underlying a participant's award have vested, and no dividends or dividend equivalents shall be paid on options or stock appreciation rights. See the section entitled "No Dividends on Unvested Awards" below.

Certain Features of our 2015 Plan

Payment of Exercise Price or Purchase Price. The payment of the exercise price for stock options, or the purchase price for shares of restricted stock, shares covered by restricted stock units, or stock payment awards may be made, in the discretion of the administrator, through a variety of methods more particularly described in our 2015 Plan, including payment by (i) cash, (ii) check, (iii) delivery of shares of our common stock (provided that any shares acquired pursuant to exercise of options have been held by the participant for the requisite period necessary to avoid a charge to our earnings for financial reporting purposes), such surrendered shares valued at the fair market value of our common stock on the date of exercise or purchase, (iv) waiver of compensation due to the participant for services rendered or (v) any combination of the foregoing methods of payment or any other consideration or method of payment as shall be permitted by applicable law.

Transferability of Awards. All incentive stock options are nontransferable except upon the participant's death by will or the laws of descent or distribution or pursuant to the terms of certain domestic relations orders. In the case of awards other than incentive stock options, the administrator may provide, in its discretion, for the transfer of all or part of the award to a participant's "family member" (as defined for purposes of the Form S-8 registration statement under the Securities Act of 1933, as amended, or the Securities Act).

Adjustments to Awards Upon Certain Changes in Capitalization. In the event that the outstanding shares of our common stock are increased or decreased or exchanged for a different number or kind of shares or our other securities by reason of a recapitalization, stock split, combination of shares, reclassification, stock dividend or other change in our capital structure, then the administrator will make adjustments to the aggregate number and kind of shares subject to our 2015 Plan, the number and kind of shares and the exercise price per share subject to outstanding awards, and the maximum share limitations, as applicable, all in order to preserve, as nearly as practical, but not to increase, the benefits to the participants.

Occurrence of Corporate Transaction. Our 2015 Plan provides that in order to preserve a participant's rights in the event of certain transactions constituting a change in control of our company, the administrator shall have the discretion to provide in each award agreement the terms and conditions that relate to the vesting of such award in the event of a change in control of our Company and the assumption of such awards or the issuance of comparable securities under an incentive program in the event of such occurrence. The terms and conditions of each award agreement may vary. If the terms of an outstanding option or stock appreciation right provide for accelerated vesting in the event of a change in control, or to the extent that an award is vested and not yet exercised, the administrator may provide, in connection with the change in control transaction, for the purchase or exchange of each option or stock appreciation right for cash or other property. All outstanding option and stock appreciation rights will terminate and cease to be exercisable upon the consummation of a change in control except to the extent that the options or stock appreciation rights are assumed by a successor entity (or parent) pursuant to the terms of such transaction.

No Dividends on Unvested Awards. If this proposal is adopted, our 2015 Plan will eliminate the ability of the administrator to provide for the payment of dividends or dividend equivalents with respect to any shares of our common stock subject to an outstanding award granted under our 2015 Plan that has not vested. For any such award, the administrator may provide only for the accrual of dividends or Dividend Equivalents that will not be payable to a participant unless and until, and only to the extent that, such award vests. No dividends or dividend equivalents shall be paid on options or stock appreciation rights.

Minimum Vesting Requirement. If this proposal is adopted, our 2015 Plan will impose a minimum vesting period of at least 12 months on any awards granted under our 2015 Plan following the date on which the amendment is adopted, provide that up to five percent (5%) of the shares subject to these awards may be issued without being subject to this minimum vesting period.

Performance Criteria. Our 2015 Plan includes a number of performance criteria that may be used to determine whether and to what extent the shares covered by an award have vested. The administrator has the discretion to specify whether the criteria will be measured either annually or cumulatively over a period of years on an absolute basis or relative to a pre-established target, to the previous years' results or to a designated peer group of companies, in each case as specified in the individual award agreement at the time of grant. The performance criteria may be stated as either target amounts, or as a percentage increase over a base period amount, and may be based upon any one or a combination of the following:

- sales;
- gross margin;
- operating income;
- pre-tax income;
- earnings before interest, taxes, depreciation and amortization;
- earnings per share of our common stock on a fully-diluted basis;
- our consolidated net income divided by the average consolidated common stockholders' equity;
- cash and cash equivalents derived from either (i) net cash flow from operations, or (ii) net cash flow from operations, financings and investing activities;
- adjusted operating cash flow return on income;
- cost containment or reduction;
- the percentage increase in the market price of our common stock over a stated period;
- return on assets;
- new product introductions;
- obtaining regulatory approvals for new or existing products; and
- individual business objectives.

Recovery. If this proposal is adopted, our 2015 Plan will be amended to reference our Incentive Compensation Clawback Policy, which was recently adopted by our board of directors, and to allow the administrator to impose other clawback, recovery or recoupment provisions in any award agreements, including a reacquisition right upon the occurrence of certain events, as the administrator determines necessary and appropriate.

Summary of U.S. Federal Income Tax Consequences of our 2015 Plan

The following is a brief summary of the material federal income tax consequences of participation in our 2015 Plan. The summary should not be relied upon as being a complete statement of all possible federal income tax consequences. Federal tax laws are complex and subject to change. Participation in our 2015 Plan may also have consequences under state and local tax laws which vary from the federal tax consequences described below. For such reasons, we recommend that each participant consult his or her personal tax advisor to determine the specific tax consequences applicable to him or her.

Incentive Stock Options. A participant who receives an incentive stock option will not recognize taxable income upon the grant of the option or the exercise of the option. However, the amount by which the fair market value of the shares at the time of exercise exceeds the option exercise price will generally be included in the participant's alternative minimum taxable income upon exercise. If stock received on exercise of an incentive stock option is disposed of in the same year the option was exercised, the regular tax treatment and the alternative tax treatment will be the same. If stock received on exercise of an incentive stock option

is sold during a year subsequent to that in which the option was exercised, the basis of the stock acquired will equal its fair market value on the date of exercise for purposes of computing alternative minimum taxable income in the year of sale.

A participant who is subject to the alternative minimum tax in the year of exercise of an incentive stock option may be able to claim, as a credit against the participant's regular tax liability in future years, all or a portion of the amount of alternative minimum tax paid that is attributable to the exercise of the incentive stock option. This credit is generally available in the first year following the year of exercise in which the participant has a regular tax liability.

Gain realized by a participant upon sale of stock issued on exercise of an incentive stock option is taxable as long-term capital gain if the participant disposes of the shares more than two years after the date of grant of the option and more than one year after the date of exercise. If the participant disposes of the shares (including by gift) less than two years after the date of grant or less than one year after the date of exercise, or a disqualifying disposition, the participant will recognize ordinary income in an amount equal to the difference between the option exercise price and the lower of the fair market value of the shares on the date of exercise or on the date of disposition of the shares. However, certain transfers may not be treated as dispositions for such purposes, such as transfers to an estate or by inheritance upon death. If the amount realized in a disqualifying disposition exceeds the fair market value of the shares on the date of exercise, the gain realized, in excess of the amount taxed as ordinary income as indicated above, will be taxed as capital gain. Any loss realized upon a disqualifying disposition will be treated as a capital loss. Capital gains and losses resulting from disqualifying dispositions will be treated as long-term or short-term depending upon whether the shares were held for more or less than the applicable statutory holding period (which is currently more than one year for long-term capital gains). We will generally be entitled to a tax deduction in an amount equal to the amount the participant must recognize as ordinary income.

Non-Qualified Stock Options. Generally, no taxable income is recognized by a participant upon the grant of a non-qualified stock option or at the time or times a non-qualified stock option becomes vested where the exercise price of such option is no less than the fair market value of the stock underlying such option at the time such option is granted. Under our 2015 Plan, the exercise price for all options must be at least equal to the fair market value of the stock underlying such options at the time of the grant. Upon exercise, however, the participant will recognize ordinary income in the amount by which the fair market value of the shares purchased, on the date of exercise, exceeds the exercise price paid for such shares. The income recognized by the participant who is our employee will be subject to income tax withholding by us out of the participant's current compensation. If such compensation is insufficient to pay the taxes due, the participant will be required to make a direct payment to us for the balance of the tax withholding obligation. We will be entitled to a tax deduction equal to the amount of ordinary income recognized by the participant, provided that certain reporting requirements are satisfied. If the exercise price of a non-qualified stock option is paid by the participant in cash, the tax basis of the shares acquired will be equal to the cash paid plus the amount of income recognized by the participant as a result of such exercise. If the exercise price is paid by delivering shares of our common stock already owned by the participant or by a combination of cash and already-owned shares, there will be no current taxable gain or loss recognized by the participant on the already-owned shares exchanged (however, the participant will nevertheless recognize ordinary income to the extent that the fair market value of the shares purchased on the date of exercise exceeds the price paid, as described above). The new shares received by the participant, up to the number of the old shares exchanged, will have the same tax basis and holding period as the participant's basis and holding period in the old shares. The balance of the new shares received will have a tax basis equal to any cash paid by the participant plus the amount of income recognized by the participant as a result of such exercise, and will have a holding period commencing with the date of exercise. Upon the sale or disposition of shares acquired pursuant to the exercise of a non-qualified stock option, the difference between the proceeds realized and the participant's basis in the shares will be a capital gain or loss and will be treated as long-term capital gain or loss if the shares have been held for more than the applicable statutory holding period (which is currently more than one year for long-term capital gains).

Restricted Stock. If no Section 83(b) election is made and we retain repurchase rights, a taxable event will occur on each date the participant's ownership rights vest (e.g., when our repurchase rights expire) as to the number of shares that vest on that date, and the holding period for capital gain purposes will not commence until the date the shares vest. The participant will recognize ordinary income on each date shares vest in an amount equal to the excess of the fair market value of such shares on that date over the amount paid for such shares. Any income recognized by a participant who is an employee will be subject to income tax withholding by us out of the participant's current compensation. If such compensation is insufficient to cover the amount to be withheld, the participant will be required to make a direct payment to us for the balance of the tax withholding obligation. The participant's basis in the shares will be equal to the purchase price, if any, increased by the amount of ordinary income recognized. If a Section 83(b) election is made within 30 days after the date of transfer, or if we do not retain any repurchase rights, then the participant will recognize ordinary income on the date of purchase in an amount equal to the excess of the fair market value of such shares on the date of purchase over the purchase price paid for such shares. We are entitled to a tax deduction in an amount equal to the ordinary income recognized by the participant.

Stock Appreciation Rights. Generally no taxable income is recognized by a participant receiving a stock appreciation right at the time the stock appreciation right is granted or at the time or times a stock appreciation right becomes vested where the base

price of a stock appreciation right is no less than the fair market value of the stock underlying such stock appreciation right at the time such option is granted. Under our 2015 Plan, the base value for all stock appreciation rights must be at least equal to the fair market value of the stock underlying such stock appreciation rights at the time of the grant. If the participant receives the appreciation inherent in the stock appreciation right in cash, the cash will be taxed as ordinary income to the participant at the time it is received. If the participant receives the appreciation inherent in a stock appreciation right in stock, the spread between the then-current market value and the base price will be taxed as ordinary income to the participant at the time such amount is received. We are not entitled to a federal income tax deduction upon the grant or termination of a stock appreciation right. However, upon the settlement of a stock appreciation right, we are entitled to a deduction equal to the amount of ordinary income the participant is required to recognize as a result of the settlement.

Restricted Stock Unit, Stock Payment Awards and Dividend Equivalents. Grants of restricted stock units, stock payment awards and dividend equivalents are generally subject to ordinary income tax at the time of payment.

Tax Withholding. Under our 2015 Plan, we have the power to withhold, or require a participant to remit to it, an amount sufficient to satisfy federal, state and local withholding tax requirements with respect to any award granted under our 2015 Plan. To the extent permissible under applicable tax, securities, and other laws, the administrator may, in its sole discretion, permit a participant to satisfy an obligation to pay any tax to any governmental entity in whole or in part, by (i) directing us to apply shares of our common stock to which the participant is entitled pursuant to an award or (ii) delivering to us shares of our common stock owned by the participant.

Tax Deduction Limitation. Section 162(m) of the Code disallows a tax deduction to public companies for compensation paid in excess of \$1,000,000 to “covered employees” as defined under Section 162(m). Prior to its amendment by the Tax Cuts and Jobs Act, or the TCJA, which was enacted December 22, 2017, there was an exception to this \$1,000,000 deduction limitation for performance-based compensation if certain requirements set forth in Section 162(m) and the applicable regulations were met. The TCJA generally amended Section 162(m) to eliminate this exception for performance-based compensation, effective for taxable years following December 31, 2017. The \$1,000,000 compensation limit was also expanded to apply to a public company’s chief financial officer and apply to certain individuals who were covered employees in years other than the then-current taxable year. Our Compensation Committee maintains a practice of considering the anticipated tax treatment to our Company in its review and establishment of compensation programs and awards. Our Compensation Committee intends to continue to consider the deductibility of compensation as a factor in assessing whether a particular arrangement is appropriate, taking into account the goals of maintaining a competitive executive compensation system generally, motivating executives to achieve corporate performance objectives and increasing stockholder value.

Deferred Compensation. Any deferrals made under our 2015 Plan, including awards granted under our 2015 Plan that are considered to be deferred compensation, must satisfy the requirements of Section 409A of the Code to avoid adverse tax consequences to participants, which include the current inclusion of deferred amounts in income and interest and a surtax on any amount included in income. The Section 409A requirements include limitations on election timing, acceleration of payments, and distributions. Section 409A applies to certain stock appreciation rights, stock unit awards, and other awards that provide the participant with an opportunity to defer recognition of income. We intend to structure any awards under our 2015 Plan to meet the applicable tax law requirements, including under Section 409A, in order to avoid adverse tax consequences to participants or us.

New Plan Benefits

If our stockholders approve the amendment to our 2015 Plan, the number of shares of our common stock issuable pursuant to the terms of our 2015 Plan will be available for awards to all eligible plan participants. Neither our board of directors nor our Compensation Committee has approved any awards under, or subject to, our 2015 Plan as proposed to be amended. As a result, neither the number nor types of future awards under our 2015 Plan to be received by or allocated to particular participants is presently determinable.

Required Vote

The affirmative vote of a majority of the outstanding shares of our common stock present in person or represented by proxy and entitled to vote at the annual meeting is required to approve the amendments to our 2015 Plan described herein.

Recommendation of our Board of Directors

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT OUR STOCKHOLDERS VOTE “FOR” APPROVAL OF THE AMENDMENTS TO THE ENDOLOGIX, INC. 2015 STOCK INCENTIVE PLAN.

Securities Authorized for Issuance under Equity Compensation Plans

PROPOSAL NO. 6

STOCK OPTION EXCHANGE PROGRAM

Overview

We are seeking stockholder approval of a proposed one-time stock option exchange program, or the Exchange Program, for our employees, other than our named executive officers, which we refer to as the Eligible Participants. None of the members of our board of directors or our named executive officers would be eligible to participate in the Exchange Program. If implemented, the Exchange Program would permit Eligible Participants to surrender out-of-the-money, or “underwater”, options with an exercise price of \$6.50 or greater, which we refer to as Eligible Options, for cancellation in exchange for a grant of a lesser number of new restricted stock units that may be settled for shares of our common stock under our 2015 Plan.

Approval of the Exchange Program will enable us to leverage underwater outstanding stock options, for the purposes for which they were originally intended, which is primarily to motivate and retain our employees and assist us in achieving the objectives of our compensation program. In addition, the Exchange Program will allow us to reduce the number of shares subject to outstanding equity awards as compared to the total number of shares of our outstanding common stock, which we refer to as our equity award overhang, through the cancellation of outstanding stock options that currently provide no meaningful retention or incentive value to our employees.

The Exchange Program is subject to the approval of our stockholders under applicable NASDAQ Listing Rules.

Our board of directors believes that the Exchange Program is in the best interests of our Company and those of our stockholders and employees for the reasons described below.

Reasons for the Exchange Program

Since 2013, we have experienced a steady decline in our stock price. We believe our stock price decline has been the result of various market forces and other factors, some of which are largely out of our control, including increased competition within our industry, the delay in obtaining regulatory approvals for new products, increased pressure on our margins and liquidity position, and the impact of litigation and regulatory matters. The closing price of our common stock has fallen from \$18.85 per share in December 2013 to a low of \$3.79 per share in February 2018. A significant majority of our outstanding options have exercise prices that exceed, in many cases significantly, the recent trading prices of our common stock. As of March 31, 2018, approximately 86% of outstanding stock options held by Eligible Participants were underwater and 61% have exercise prices of \$6.50 per share or higher. Of the options eligible to participate in the Exchange Program, approximately 65% were granted two years or more prior to the anticipated date of commencement of the option exchange, which is June 15, 2018.

Stock incentive awards are an essential part of our total compensation structure, and when there is a significant decline in the price of our common stock, it has a meaningful impact on the total compensation actually earned by our employees. We rely on our employees to help us achieve our business plans and strategic objectives. A significant number of the stock options granted to our employees in recent years have lost their economic benefit to these employees, thereby eroding their effectiveness as an economic incentive to remain in our employ, while nevertheless creating potential dilution to our stockholders. Many of our employees have been working for us for a number of years and have developed skills or knowledge that would be difficult to replace. An effective and competitive incentive program is critical to the success of our business to motivate key employees and reward their contributions by allowing them to benefit from increases in the value of our shares. As eligible stock options have been out-of-the-money for an extended period of time, employees have not been able to receive value by exercising them. If our share price remains at current levels, existing stock options will continue to have little value due to the significant difference between the current trading price and the exercise prices of outstanding stock option awards. As a result, our equity awards will not serve as an effective incentive to retain and motivate key employees.

Additionally, under applicable accounting rules, we are required to continue to recognize compensation expense related to these underwater stock options as they vest, even if they are never exercised because they remain underwater and do not fully provide the intended incentive and retention benefits. We believe the Exchange Program will allow us to recapture retentive and incentive value from the compensation expense that we record in our financial statements with respect to certain Eligible Options.

By replacing underwater options that have diminished retention or incentive value with new restricted stock units that will provide both enhanced retention and incentive value while incurring only incremental compensation expense, we will be able to use our available equity award resources more efficiently.

Our board of directors believes the Exchange Program is in our best interests and those of our stockholders, as replacement restricted stock units received under the program will provide added incentive to motivate and retain talented employees. In addition, the Exchange Program will provide the opportunity to reduce our “overhang” of outstanding options, allow us to make better use of the compensation costs we incur from our outstanding option awards, and make available more shares under our 2015 Plan for future issuance of awards to valued employees. Indeed, the potential adoption of the Exchange Program is a significant factor considered by our board of directors in recommending only a 500,000 share increase under our 2015 Plan pursuant to Proposal 5.

Beginning in June 2017, our Compensation Committee engaged Radford, an independent compensation consultant, to perform a comprehensive evaluation of a stock option exchange program. As part of this evaluation, our Compensation Committee identified the likely participants in an exchange program, and evaluated the value of the equity awards to be exchanged, the general parameters of an exchange program, the potential impact of an exchange program on our current hiring and retention goals. We determined that an exchange program pursuant to which employees, excluding named executive officers, could exchange their underwater stock options for a lesser number of restricted stock units was the most attractive alternative for several reasons, including the following:

- *The Exchange Program will allow us to obtain value for previous compensation expense.* We have incurred compensation expense in respect of our current stock option awards despite employees being unable to enjoy any benefits through the exercise of the stock options. We believe the Exchange Program is reasonable and balanced because fewer shares would be reserved for issuance for restricted stock units, the awards would vest in equal installments over a three-year period from the date of grant and would not be expected to have significant adverse impact on our reported earnings,

and fully vested stock options may be surrendered for unvested restricted stock unit awards, which offers the potential for a significant positive impact on retention, motivation and performance.

- *The Exchange Program will reduce our “equity award overhang”.* Outstanding stock options cannot be removed from our equity award overhang until they are exercised, expire or the employee who holds them has left our employment. Under the proposed Exchange Program, Eligible Participants will receive significantly fewer replacement restricted stock units in exchange for their surrendered stock options, which will reduce overall the number of shares underlying outstanding equity awards. Based on the assumptions described below, if all Eligible Options are exchanged, stock options to purchase approximately 5,050,000 shares will be surrendered and canceled, while replacement restricted stock unit awards covering approximately 1,430,000 shares will be granted. Accordingly, the Exchange Program could result in a significant reduction in our outstanding equity awards. All Eligible Options that are not exchanged will remain outstanding and in effect in accordance with their existing terms.
- *Reduce pressure for additional equity awards or additional cash compensation; reduce risks related to the price of our common stock.* If we are unable to address the concerns raised by our underwater stock options (such as by conducting the Exchange Program), we may find it necessary to grant a significant number of equity awards or provide additional cash compensation to our employees above and beyond our ongoing equity grant and compensation practices to provide renewed incentives to our employees, achieve our employee retention objectives, and meet the requirements of our compensation program. These additional awards would increase our compensation expense. Additionally, using incremental cash compensation to replace underwater stock options may have a material adverse effect on our available cash resources. Further, given the recent volatility of and prolonged decline in the price of our common stock, and under the circumstances in which an exchange would be conducted, we believe restricted stock units provide greater retention and compensation value than stock options.
- *The reduced number of shares subject to the stock options will increase shares available under our 2015 Plan.* Under the Exchange Program, shares subject to the Eligible Options that are surrendered will return to the pool of shares available for future grant under our 2015 Plan. As discussed above, if all Eligible Options are exchanged, stock options to purchase approximately 5,050,000 shares will be surrendered and canceled, while replacement restricted stock unit awards covering approximately 1,430,000 shares will be granted. Pursuant to our 2015 Plan, the number of shares available for grant under the plan will be reduced by 1.6 shares of common stock for each share granted pursuant to a restricted stock unit award, meaning that an aggregate of approximately 2,300,000 shares will be deemed to be issued under our 2015 Plan. Accordingly, if all Eligible Options are exchanged, it will result in a net increase in the number of shares available for grant under our Plan of approximately 2,750,000 shares. If instead only 80% of the Eligible Options are exchanged, it will result in approximately 2,200,000 shares being returned to the pool of shares. This return of shares will constitute an efficient use of the shares available for future issuance, and represents one of the most significant factors considered by our board of directors in recommending only a 500,000 share increase under our 2015 Plan pursuant to Proposal 5.

As a result, we determined that a program under which Eligible Participants could exchange out-of-the-money stock options for a lesser number of restricted stock units was the most attractive means available to us to restore incentives for our employees.

Summary of the Exchange Program Features

Eligible Options. Only stock options with a per share exercise price of \$6.50 or greater will be eligible to be exchanged for restricted stock units. We anticipate that, on the option exchange commencement date, \$6.50 will be the 52-week intra-day high. Also, the threshold exercise price of \$6.50 represents a 55% premium over our 30-day trailing average stock price as of March 31, 2018. As of March 31, 2018, the number of outstanding Eligible Options was approximately 5,050,000 shares.

Establishment of a New Vesting Period. New restricted stock units will be subject to a new vesting period whereby these awards will vest in equal installments over a three-year period from the date of grant. The new vesting period supports the retentive value of the new awards and acknowledges that employees may be surrendering fully-vested but significantly underwater awards.

Eligible Participants. We intend to make the Exchange Program available to all of our employees, excluding our named executive officers. To be eligible, an employee must be employed by us or one of our subsidiaries both at the time the Exchange Program starts and on the date on which the surrendered stock options are canceled and the restricted stock units are granted to replace them. For eligible employees in some non-U.S. jurisdictions, in the discretion of our Compensation Committee, eligible stock options may be exchanged for a form of award other than restricted stock units, if granting of restricted stock units under the Exchange Program raises local regulatory, tax, accounting or administrative concerns. As of March 31, 2018, there were approximately 300 Eligible Participants. None of the members of our board of directors would be eligible to participate in the Exchange Program. Because the Exchange Program is designed to improve the retentive element of our equity-based awards, former employees would

be excluded from participating in the Exchange Program.

Participation in the Exchange Program. Eligible Participants do not have to participate in the Exchange Program and participation in the Exchange Program is voluntary. Eligible Participants will have an election period of at least 20 business days from the start of the Exchange Program in which to determine whether they wish to participate. Upon the commencement of the Exchange Program, eligible employees holding Eligible Options will receive printed exchange offer materials explaining the precise terms and timing of the Exchange Program. If an Eligible Participant does not elect to participate in the Exchange Program, then his or her eligible stock options will remain outstanding in accordance with their current terms.

Implementation of the Exchange Program Following Stockholder Approval. If we receive the required stockholder approval, the Exchange Program will be commenced within 12 months of the date of stockholder approval. The actual implementation date within that 12-month period will be determined by our Compensation Committee. If the Exchange Program does not commence within this time frame, we will not conduct the Exchange Program without again seeking stockholder approval. Our board of directors reserves the right to amend, postpone, or under certain circumstances cancel the Exchange Program once it has commenced.

Exchange Ratio. Exchange ratios will be utilized and designed to result in grants of new restricted stock units with a fair value, for accounting purposes, that will be approximately equal to the fair value of the Eligible Options that are surrendered in the exchange. Shortly before the start of the Exchange Program, our Compensation Committee will determine exchange ratios by assigning an average exchange ratio to each of the pools of vested and unvested stock options, depending on the fair market value of our common stock on the determination date (which is expected to be the closing price of our common stock on that date).

The exchange ratios will be determined with reference to the fair value of the eligible vested and unvested stock options (calculated using the Black-Scholes option valuation model) within the relevant grouping. In determining fair value, the Black-Scholes model takes into account many variables and estimates, such as our current stock price, the volatility of the price of our common stock, and the remaining term of an eligible stock option. Setting the exchange ratios in this manner is intended to result in the issuance of replacement restricted stock units that have an aggregate fair value approximately equal to the aggregate fair value of the surrendered options they replace. This will minimize any additional compensation cost that we must recognize on the new restricted stock units, other than compensation expense that might result from fluctuations in our stock price after the exchange ratios have been set but before the exchange actually occurs.

Although the exchange ratios cannot be determined now, we can provide an example based on certain assumptions regarding the start date of the offer to exchange, and the fair market value of our common stock. The following exchange ratios are provided solely as an example of how we would determine the exchange ratio if we were commencing the exchange offer based on a \$4.23 share price as of March 31, 2018. The total number of new restricted stock units an Eligible Participant will receive with respect to a surrendered Eligible Option will be determined by converting the number of shares underlying the surrendered Eligible Option according to the exchange ratio and rounding down to the nearest whole share. The exchange ratio will be applied on a grant-by-grant basis.

Sample Exchange Ratios for Eligible Options

Exercise Price	Option Shares Outstanding	Weighted Average Remaining Life	Exchange Ratio	New Restricted Stock Units
\$6.50-\$8.00	3,290,741	7.96	3.00 to 1	1,096,914
\$8.01-\$14.99	1,353,299	5.95	5.00 to 1	270,660
\$15.00 and Up	410,699	6.12	7.00 to 1	58,671

The foregoing exchange ratios are provided solely as an example. We will apply substantially similar methodology once these factors are decided closer to the time of commencement of the Exchange Program.

The Eligible Options surrendered for exchange will be canceled and all shares of common stock that were subject to such surrendered stock options will again become available for future awards under our 2015 Plan.

Effect on Stockholders. The Exchange Program is designed to provide renewed incentives and motivate the Eligible Participants to continue to create stockholder value and is also designed to reduce the number of shares currently subject to outstanding stock options, thereby avoiding the dilution in ownership that normally results from supplemental grants of new stock options or other awards. We are unable to predict the precise impact of the Exchange Program on our stockholders because we cannot predict which or how many employees will elect to participate in the Exchange Program, nor can we predict which or how many Eligible Options such employees will elect to exchange.

Effect on our 2015 Plan. If all of the Eligible Options are exchanged for restricted stock units in accordance with the assumed exchange ratios, eligible stock options for approximately 5,050,000 shares would be surrendered and canceled, and approximately 1,430,000 restricted stock units would be issued. Pursuant to our 2015 Plan, the number of shares available for grant under the plan will be reduced by 1.6 shares of common stock for each share granted pursuant to a restricted stock unit award, meaning that an aggregate of approximately 2,300,000 shares will be deemed to be issued under our 2015 Plan. As a result, there would be a net increase in the number of shares remaining available for grant under our 2015 Plan of approximately 2,750,000 shares.

Summary of U.S. Federal Income Tax Consequences of Exchange Program for Participating Employees

The following is a summary of the anticipated material U.S. federal income tax consequences of participating in the Exchange Program. A more detailed summary of the applicable tax considerations for participants will be provided in the exchange offer materials that will be made available to employees upon the commencement of the Exchange Program. The law and regulations themselves are subject to change, and the U.S. Internal Revenue Service is not precluded from adopting a contrary position. The exchange of eligible stock options for restricted stock units pursuant to the Exchange Program should be treated as a non-taxable exchange and we and participating employees generally should recognize no income for U.S. federal income tax purposes upon the surrender of eligible stock options and the grant of restricted stock units. However, the tax consequences for participating employees outside the U.S. may differ.

Accounting Impact

Under ASC Topic 718, *Compensation - Stock Compensation*, we expect to recognize the unamortized compensation cost of the surrendered stock options as well as any incremental compensation cost of the restricted stock units granted in the Exchange Program. The incremental compensation cost will be measured as the excess, if any, of the fair value of each restricted stock unit granted to employees in exchange for surrendered stock options, measured as of the date such awards are granted, over the fair value of the original stock option grant surrendered in exchange for such awards, measured immediately before the exchange. This expense will be recognized ratably over the vesting period of the restricted stock units. In the event that any of the restricted stock units are forfeited prior to their vesting due to termination of employment, the expense for the forfeited restricted stock units will be reversed and will not be recognized; however, we would recognize any unamortized compensation expense from the surrendered stock options which would have been recognized under the original vesting schedules.

Overall Effect of Exchange Program

Because the decision whether to participate in the Exchange Program is completely voluntary, we are not able to predict how many employees will elect to participate, how many stock options will be surrendered for exchange, or the number of restricted stock units that may be granted in exchange for stock options under the program.

Implementation of the Exchange Program

We have not commenced the Exchange Program and we will not do so unless our stockholders approve this proposal. If our stockholders approve this proposal, and our board of directors determines to proceed to implement the Exchange Program, we expect the Exchange Program to commence within 12 months of the date of stockholder approval of the proposal. If the Exchange Program does not commence within this time frame, we would not conduct another stock option exchange program without first seeking stockholder approval. The date on which the Exchange Program would commence is currently anticipated to be June 15, 2018. Even if the Exchange Program is approved by our stockholders, our board of directors will retain the authority, in its discretion, to terminate, amend or postpone the Exchange Program at any time prior to expiration of the election period under the Exchange Program.

Upon the commencement of the Exchange Program, Eligible Participants holding Eligible Options will receive written materials in the form of an "Offer to Exchange" explaining the precise terms and timing of the Exchange Program. At or before the commencement of the Exchange Program, we will file an Offer to Exchange with the SEC as part of a tender offer statement on Schedule TO. Eligible Participants, as well as stockholders and members of the public, will be able to obtain the Offer to Exchange and other documents filed by us with the SEC free of charge from the SEC's website at www.sec.gov. The tender offer that we will commence in connection with the Exchange Program is referred to herein as the "Exchange Offer." Eligible Participants will be given at least 20 business days to elect to surrender their Eligible Options in exchange for restricted stock units, which period may be extended by us subject to our compliance with applicable law. Once the offer to exchange is closed, Eligible Options that were surrendered for exchange will be canceled, and our board of directors will approve grants of restricted stock units to participating Eligible Participants in accordance with the established exchange ratios. All such restricted stock units will be granted under our 2015 Plan and will be subject to the terms of such plan and a restricted stock unit agreement to be entered into between us and each participant.

While the terms of the Exchange Program are expected to be materially similar to the terms described above, we may find it necessary or appropriate to change the terms of the Exchange Program to take into account our administrative needs, requirements of applicable law, accounting rules, and our policy decisions that make it appropriate to change the Exchange Program. We also may alter the method of determining the exchange ratios if we decide that there is a more efficient and appropriate way to set the ratios while still continuing to achieve the objectives of the Exchange Program. However, we will not permit named executive officers or directors to participate in the Exchange Program, nor will we permit stock options priced below the 52-week intra-day high of our common stock at the launch of the Exchange Program to be exchanged.

Additionally, we may decide not to implement the Exchange Program even if stockholder approval of the Exchange Program is obtained, or we may amend or terminate the Exchange Program once it is in progress. The final terms of the Exchange Program will be described in an offer to exchange that will be filed with the SEC at or before commencement of the Exchange Program. Stockholders, as well as members of the public, will be able to access the offer to exchange and other documents we file with the SEC free of charge on the SEC's web site at www.sec.gov. Although we do not anticipate that the staff of the SEC will require us to materially modify the terms of the Exchange Program, it is possible that we may need to alter the terms of the Exchange Program to comply with comments from the SEC. Changes in the terms of the Exchange Program may also be required for tax purposes for U.S. tax residents as the tax treatment of the Exchange Program is not entirely certain. It is also possible that we may need to make modifications to the terms offered to employees in countries outside the U.S. to comply with local requirements, or for tax or accounting reasons. Our Compensation Committee will retain the discretion to make any such necessary or desirable changes to the terms of the Exchange Program for purposes of complying with comments from the SEC or optimizing the U.S. federal or foreign tax consequences.

Our board of directors recognizes that approval of this proposal may therefore benefit certain of our executive officers.

Such conditions may include, but are not limited to, continued employment or the achievement of specified performance goals or objectives established by the Administrator with respect to one or more Performance Criteria.

5.2 Option Agreements. Each Option granted pursuant to this Plan shall be evidenced by an Option Agreement which shall specify the number of shares subject thereto, vesting provisions relating to such Option, the Exercise Price per share, and whether the Option is an Incentive Option or Nonqualified Option. As soon as is practical following the grant of an Option, an Option Agreement shall be duly executed and delivered by or on behalf of the Company to the Optionee to whom such Option was granted. Each Option Agreement shall be in such form and contain such additional terms and conditions, not inconsistent with the provisions of this Plan, as the Administrator shall, from time to time, deem desirable.

5.3 Exercise Price. The Exercise Price per share of Common Stock covered by each Option shall be determined by the Administrator, subject to the following: (a) the Exercise Price of an Incentive Option shall not be less than 100% of Fair Market Value on the date the Incentive Option is granted, (b) the Exercise Price of a Nonqualified Option shall not be less than 100% of Fair Market Value on the date the Nonqualified Option is granted, and (c) if the person to whom an Incentive Option is granted is a 10% Stockholder on the date of grant, the Exercise Price shall not be less than 110% of Fair Market Value on the date the Incentive

Option is granted.

However, an Option may be granted with an exercise price lower than that set forth in the preceding sentence if such Option is granted pursuant to an assumption or substitution for another option in a manner satisfying the provisions of Section 424 of the Code.

5.4 Payment of Exercise Price. Payment of the Exercise Price shall be made upon exercise of an Option and may be made, in the discretion of the Administrator, subject to any legal restrictions, by: (a) cash; (b) check; (c) the surrender of shares of Common Stock owned by the Optionee (provided that shares acquired pursuant to the exercise of options granted by the Company must have been held by the Optionee for the requisite period necessary to avoid a charge to the Company's earnings for financial reporting purposes), which surrendered shares shall be valued at Fair Market Value as of the date of such exercise; (d) the cancellation of indebtedness of the Company to the Optionee; (e) the waiver of compensation due or accrued to the Optionee for services rendered; (f) provided that a public market for the Common Stock exists, a "same day sale" commitment from the Optionee and an NASD Dealer whereby the Optionee irrevocably elects to exercise the Option and to sell a portion of the shares so purchased to pay for the Exercise Price and whereby the NASD Dealer irrevocably commits upon receipt of such shares to forward the Exercise Price directly to the Company; (g) provided that a public market for the Common Stock exists, a "margin" commitment from the Optionee and an NASD Dealer whereby the Optionee irrevocably elects to exercise the Option and to pledge the shares so purchased to the NASD Dealer in a margin account as security for a loan from the NASD Dealer in the amount of the Exercise Price, and whereby the NASD Dealer irrevocably commits upon receipt of such shares to forward the Exercise Price directly to the Company; or (h) any combination of the foregoing methods of payment or any other consideration or method of payment as shall be permitted by applicable law.

5.5 Term and Termination of Options. The term and provisions for termination of each Option shall be as fixed by the Administrator, but no Option may be exercisable more than ten (10) years after the date it is granted.

5.6 Vesting and Exercise of Options. Each Option shall vest and become exercisable in one or more installments, at such time or times and subject to such conditions, including without limitation the achievement of specified performance goals or objectives established with respect to one or more Performance Criteria, as shall be determined by the Administrator.

5.7 Annual Limit on Incentive Options. To the extent required for "incentive stock option" treatment under Section 422 of the Code, the aggregate Fair Market Value (determined as of the time of grant) of the Common Stock with respect to which Incentive Options granted under this Plan and any other plan of the Company or any Affiliated Company become exercisable for the first time by an Optionee during any calendar year shall not exceed \$100,000.

5.8 Nontransferability of Options. Except as otherwise provided in this Section 5.8, Options shall not be assignable or transferable except by will, the laws of descent and distribution or pursuant to a DRO entered by a court in settlement of marital property rights, and during the life of the Optionee, Options shall be exercisable only by the Optionee. At the discretion of the Administrator and in accordance with rules it establishes from time to time, Optionees may be permitted to transfer some or all of their Nonqualified Options to one or more "family members," which is not a "prohibited transfer for value," provided that (i) the Optionee (or such Optionee's estate or representative) shall remain obligated to satisfy all income or other tax withholding obligations associated with the exercise of such Nonqualified Option; (ii) the Optionee shall notify the Company in writing that such transfer has occurred and disclose to the Company the name and address of the "family member" or "family members" and their relationship to the Optionee, and (iii) such transfer shall be effected pursuant to transfer documents in a form approved by the Administrator. For purposes of the foregoing, the terms "family members" and "prohibited transfer for value" have the meaning ascribed to them in the General Instructions to Form S-8 (or any successor form) promulgated under the Securities Act of 1933, as amended.

5.9 Repricing Prohibited. Subject to Section 4.2 hereof, without the prior approval of the Company's stockholders, evidenced by a majority of votes cast, the Administrator shall not amend the terms of outstanding Options to reduce the Exercise Price of outstanding Options, cancel outstanding Options in exchange for cash, other awards or Options with an Exercise Price that is less than the Exercise Price of the original Options, or otherwise approve any modification to such an Option that would be treated as a "repricing" under the then applicable rules, regulations or listing requirements adopted by the Nasdaq Stock Market.

5.10 Rights as a Stockholder. An Optionee or permitted transferee of an Option shall have no rights or privileges as a stockholder with respect to any shares covered by an Option until such Option has been duly exercised and certificates representing shares purchased upon such exercise have been issued to such person.

5.11 Unvested Shares. The Administrator shall have the discretion to grant Options which are exercisable for unvested shares of Common Stock. Should the Optionee cease being an employee, officer or director of the Company while owning such

unvested shares, the Company shall have the right to repurchase, at the exercise price paid per share, any or all of those unvested shares. The terms upon which such repurchase right shall be exercisable (including the period and procedure for exercise and the appropriate vesting schedule for the purchased shares) shall be established by the Administrator and set forth in the document evidencing such repurchase right.

ARTICLE 6.

RESTRICTED STOCK

The Administrator shall have the right to issue pursuant to this Plan and at a Purchase Price determined by the Administrator, shares of Common Stock subject to such terms, restrictions and conditions as the Administrator may determine at the time of grant. 6.2 Restricted Stock Award Agreements. A Participant shall have no rights with respect to the shares of Restricted Stock covered by a Restricted Stock Award Agreement until the Participant has paid the full Purchase Price, if any, to the Company in the manner set forth in Section 6.3(b) hereof and has executed and delivered to the Company the applicable Restricted Stock Award Agreement. Each Restricted Stock Award Agreement shall be in such form, and shall set forth the Purchase Price, if any, and such other terms, conditions and restrictions of the Restricted Stock Award Agreement, not inconsistent with the provisions of this Plan, as the Administrator shall, from time to time, deem desirable. Each such Restricted Stock Award Agreement may be different from each other Restricted Stock Award Agreement.

If payment for shares of Restricted Stock is made by promissory note, any cash dividends paid with respect to the Restricted Stock may be applied, in the discretion of the Administrator, to repayment of such note.

6.4 Vesting of Restricted Stock. The Restricted Stock Award Agreement shall specify the date or dates, the performance goals, if any, established by the Administrator with respect to one or more Performance Criteria that must be achieved, and any other conditions on which the Restricted Stock may vest.

6.5 Rights as a Stockholder. Upon complying with the provisions of Sections 6.2 and 6.3 hereof, a Participant shall have the rights of a stockholder with respect to the Restricted Stock acquired pursuant to a Restricted Stock Award Agreement, including voting and dividend rights (subject to Section 10.4), subject to the terms, restrictions and conditions as are set forth in such Restricted Stock Award Agreement. Unless the Administrator shall determine otherwise, certificates evidencing shares of Restricted Stock shall remain in the possession of the Company until such shares have vested in accordance with the terms of the Restricted Stock Award Agreement.

6.6 Restrictions. Shares of Restricted Stock may not be sold, pledged or otherwise encumbered or disposed of and shall not be assignable or transferable except by will, the laws of descent and distribution or pursuant to a DRO entered by a court in settlement of marital property rights, except as specifically provided in the Restricted Stock Award Agreement or as authorized by the Administrator. In the event of termination of a Participant's employment, service as a director of the Company or Service Provider status for any reason whatsoever (including death or disability), the Restricted Stock Award Agreement may provide, in the discretion of the Administrator, that the Company may, at the discretion of the Administrator, exercise a Repurchase Right to repurchase at the original Purchase Price the shares of Restricted Stock that have not vested as of the date of termination.

ARTICLE 7.

RESTRICTED STOCK UNITS

7.1 Grants of Restricted Stock Units and Dividend Equivalents. The Administrator shall have the right to grant, pursuant to this Plan, Restricted Stock Units and Dividend Equivalents, subject to such terms, restrictions and conditions as the Administrator may determine at the time of grant. Such conditions may include, but are not limited to, continued employment or the achievement of specified performance goals or objectives established by the Administrator with respect to one or more Performance Criteria, which require the Administrator to certify in writing whether and the extent to which such performance goals were achieved before such restrictions are considered to have lapsed.

7.2 Restricted Stock Award Agreements. A Participant shall have no rights with respect to the Restricted Stock Units or Dividend Equivalents covered by a Restricted Stock Award Agreement until the Participant has executed and delivered to the Company the applicable Restricted Stock Award Agreement. Each Restricted Stock Award Agreement shall be in such form, and shall set forth the Purchase Price, if any, and such other terms, conditions and restrictions of the Restricted Stock Award Agreement, not inconsistent with the provisions of this Plan, as the Administrator shall, from time to time, deem desirable. Each such Restricted Stock Award Agreement may be different from each other Restricted Stock Award Agreement.

7.4 Vesting of Restricted Stock Units and Dividend Equivalents. The Restricted Stock Award Agreement shall specify the date or dates, the performance goals, if any, established by the Administrator with respect to one or more Performance Criteria that must be achieved, and any other conditions on which the Restricted Stock Units and Dividend Equivalents may vest.

7.5 Rights as a Stockholder. Holders of Restricted Stock Units shall not be entitled to vote or to receive dividends unless or until they become owners of the shares of Common Stock pursuant to their Restricted Stock Award Agreement and the terms and conditions of the Plan, including Section 10.4 hereof.

7.6 Restrictions. Restricted Stock Units and Dividend Equivalents may not be sold, pledged or otherwise encumbered or disposed of and shall not be assignable or transferable except by will, the laws of descent and distribution or pursuant to a DRO entered by a court in settlement of marital property rights, except as specifically provided in the Restricted Stock Award Agreement or as authorized by the Administrator. In the event of termination of a Participant's employment, service as a director of the Company or Service Provider status for any reason whatsoever (including death or disability), the Restricted Stock Award Agreement may provide that all Restricted Stock Units and Dividend Equivalents that have not vested as of such date shall be automatically forfeited by the Participant. However, if, with respect to such unvested Restricted Stock Units the Participant paid a Purchase Price, the Administrator shall have the right, exercisable at the discretion of the Administrator, to exercise a Repurchase Right to cancel such unvested Restricted Stock Units upon payment to the Participant of the original Purchase Price. The Participant shall forfeit such unvested Restricted Stock Units upon the Administrator's exercise of such right.

7.7 Restricted Stock Unit Grants to Non-Employee Directors.

meeting). All such Restricted Stock Units shall be subject to the terms and conditions of this Plan.

(b) Vesting of Restricted Stock Units Granted to Non-Employee Directors. Each initial Restricted Stock Unit granted to a newly-elected or appointed Non-Employee Director shall vest, in a series of four (4) successive equal annual installments over the Non-Employee Director's period of continued service as a director, with the first such installment to vest upon the Non-Employee Director's completion of one (1) year of service as a Non-Employee Director measured from the Restricted Stock Unit grant date. Each annual Restricted Stock Unit granted to continuing Non-Employee Directors shall vest, upon the Non-Employee Director's completion of one (1) year of service as a Non-Employee Director measured from the Restricted Stock Unit grant date.

ARTICLE 8.

STOCK APPRECIATION RIGHTS

8.1 Grant of Stock Appreciation Rights. A Stock Appreciation Right may be granted to any Participant selected by the Administrator. Stock Appreciation Rights may be granted on a basis that allows for the exercise of the right by the Participant or that provides for the automatic payment of the right upon a specified date or event. Stock Appreciation Rights shall be exercisable or payable at such time or times and upon conditions as may be approved by the Administrator, provided that the Administrator may accelerate the exercisability or payment of a Stock Appreciation Right at any time.

8.2 Vesting of Stock Appreciation Rights. Each Stock Appreciation Right shall vest and become exercisable in one or more installments at such time or times and subject to such conditions, including without limitation the achievement of specified performance goals or objectives established with respect to one or more Performance Criteria, as shall be determined by the Administrator. A Stock Appreciation Right will be exercisable or payable at such time or times as determined by the Administrator, provided that the maximum term of a Stock Appreciation Right shall be ten (10) years from the date of grant. The base price of a Stock Appreciation Right shall be determined by the Administrator in its sole discretion; provided, however, that the base price per share of any Stock Appreciation Right shall not be less than one hundred percent (100%) of the Fair Market Value of the shares of Common Stock on the date of grant.

8.3 Payment of Stock Appreciation Rights. A Stock Appreciation Right will entitle the holder, upon exercise or other payment of the Stock Appreciation Right, as applicable, to receive an amount determined by multiplying: (i) the excess of the Fair Market Value of a share of Common Stock on the date of exercise or payment of the Stock Appreciation Right over the base price of such Stock Appreciation Right, by (ii) the number of shares as to which such Stock Appreciation Right is exercised or paid. Payment of the amount determined under the foregoing shall be made either in cash or in shares of Common Stock, as determined by the Administrator in its discretion. If payment is made in shares of Common Stock, such shares shall be valued at their Fair Market Value on the date of exercise or payment, subject to applicable tax withholding requirements and to such conditions, as are set forth in this Plan and the applicable Stock Appreciation Rights Award Agreement.

8.4 Nontransferability of Stock Appreciation Rights. Except as otherwise provided in this Section 8.4, Stock Appreciation Rights shall not be assignable or transferable except by will, the laws of descent and distribution or pursuant to a DRO entered by a court in settlement of marital property rights, and during the life of the Stock Appreciation Rights Holder, Stock Appreciation Rights shall be exercisable only by the Stock Appreciation Rights Holder. At the discretion of the Administrator and in accordance with rules it establishes from time to time, Stock Appreciation Rights Holders may be permitted to transfer some or all of their Stock Appreciation Rights to one or more "family members," which is not a "prohibited transfer for value," provided that (i) the Stock Appreciation Rights Holder (or such holder's estate or representative) shall remain obligated to satisfy all income or other tax withholding obligations associated with the exercise of such Stock Appreciation Right; (ii) the Stock Appreciation Rights Holder shall notify the Company in writing that such transfer has occurred and disclose to the Company the name and address of the "family member" or "family members" and their relationship to the holder, and (iii) such transfer shall be effected pursuant to transfer documents in a form approved by the Administrator. For purposes of the foregoing, the terms "family members" and "prohibited transfer for value" have the meaning ascribed to them in the General Instructions to Form S-8 (or any successor form) promulgated under the Securities Act of 1933, as amended.

ARTICLE 9.

STOCK PAYMENT AWARDS

9.1 Grant of Stock Payment Awards. A Stock Payment award may be granted to any Participant selected by the

Administrator. A Stock Payment award may be granted for past services, in lieu of bonus or other cash compensation, as directors' compensation or for any other valid purpose as determined by the Administrator. A Stock Payment award granted to a Participant represents shares of Common Stock that are issued without restrictions on transfer and other incidents of ownership and free of forfeiture conditions, except as otherwise provided in the Plan and the Award Agreement. The Administrator may, in connection with any Stock Payment award, provide that no payment is required, or require the payment by the Participant of a specified purchase price.

9.2 Rights as Stockholder. Subject to the foregoing provisions of this Article 9 and the applicable Award Agreement, upon the issuance of the Common Stock under a Stock Payment award the Participant shall have all rights of a stockholder with respect to the shares of Common Stock, including the right to vote the shares and receive all dividends and other distributions paid or made with respect thereto.

ARTICLE 10.

ADMINISTRATION OF THE PLAN

10.1 Administrator. Authority to control and manage the operation and administration of the Plan shall be vested in the Board, which may delegate such responsibilities in whole or in part to a Committee. Members of the Committee may be appointed from time to time by, and shall serve at the pleasure of, the Board. The Board may limit the composition of the Committee to those persons necessary to comply with the requirements of Section 16 of the Exchange Act.

10.2 Powers of the Administrator. In addition to any other powers or authority conferred upon the Administrator elsewhere in the Plan or by law, the Administrator shall have full power and authority: (a) to determine the persons to whom, and the time or times at which, Awards shall be granted, the number of shares to be represented by each Award, and the consideration to be received by the Company upon the exercise and/or vesting of such Awards; (b) to interpret the Plan; (c) to create, amend or rescind rules and regulations relating to the Plan; (d) to determine the terms, conditions and restrictions contained in, and the form of, Award Agreements; (e) to determine the identity or capacity of any persons who may be entitled to exercise a Participant's rights under any Award Agreement under the Plan; (f) to correct any defect or supply any omission or reconcile any inconsistency in the Plan or in any Award Agreement; (g) notwithstanding the minimum vesting provisions of Section 4.3, to accelerate the vesting of any Award or release or waive any repurchase rights of the Company with respect to Restricted Stock Awards in connection with a Participant's death or Disability or a Change in Control; (h) to extend the expiration date of any Option; (i) to amend outstanding Award Agreements to provide for, among other things, any change or modification which the Administrator could have included in the original Agreement or in furtherance of the powers provided for herein; and (j) to make all other determinations necessary or advisable for the administration of the Plan, but only to the extent not contrary to the express provisions of the Plan. Any action, decision, interpretation or determination made in good faith by the Administrator in the exercise of its authority conferred upon it under the Plan shall be final and binding on the Company and all Participants. To the extent permitted by applicable law, the Administrator may from time to time delegate to one or more members of the Board or one or more officers of the Company the authority to grant or amend Awards to Participants other than (a) senior executives of the Company who are subject to Section 16 of the Exchange Act, (b) Covered Employees, or (c) officers of the Company (or members of the Board) to whom authority to grant or amend Awards has been delegated hereunder. Any delegation hereunder shall be subject to the restrictions and limits that the Administrator specifies at the time of such delegation, and the Administrator may at any time rescind the authority so delegated or appoint a new delegatee.

10.3 Limitation on Liability. No employee of the Company or member of the Board or Administrator shall be subject to any liability with respect to duties under the Plan unless the person acts fraudulently or in bad faith. To the extent permitted by law, the Company shall indemnify each member of the Board or Administrator, and any employee of the Company with duties under the Plan, who was or is a party, or is threatened to be made a party, to any threatened, pending or completed proceeding, whether civil, criminal, administrative or investigative, by reason of such person's conduct in the performance of duties under the Plan.

10.4 No Dividends on Unvested Awards. The Administrator may not provide for the current payment of dividends or Dividend Equivalents with respect to any shares of Common Stock subject to an outstanding award granted under the Plan (or portion thereof) that has not vested. For any such award, the Committee may provide only for the accrual of dividends or Dividend Equivalents that will not be payable to the Participant unless and until, and only to the extent that, such award vests. Notwithstanding the foregoing, Dividend Equivalents may be granted only in connection with a grant of Restricted Stock Units subject to the vesting conditions that govern Restricted Stock Units as set forth in the applicable Restricted Stock Award Agreement. No dividends or Dividend Equivalents shall be paid on Options or Stock Appreciation Rights.

ARTICLE 11.

CHANGE IN CONTROL

11.1 Impact of Change in Control on Awards Under Plan. In order to preserve a Participant's rights in the event of a Change in Control of the Company:

(a) The Administrator shall have the discretion to provide in each Award Agreement the terms and conditions that relate to (i) vesting of such Award in the event of a Change in Control, and (ii) assumption of such Awards or issuance of comparable securities under an incentive program in the event of a Change in Control. The aforementioned terms and conditions may vary in each Award Agreement.

(b) If the terms of an outstanding Option provide for accelerated vesting in the event of a Change in Control, or to the extent that a Option is vested and not yet exercised, the Administrator in its discretion may provide, in connection with the Change in Control transaction, for the purchase or exchange of each Option for an amount of cash or other property having a value equal to the difference (or "spread") between: (x) the value of the cash or other property that the Participant would have received pursuant to the Change in Control transaction in exchange for the shares issuable upon exercise of the Option had the Option been exercised immediately prior to the Change in Control, and (y) the Exercise Price of the Option.

(c) If the terms of an outstanding Stock Appreciation Right provide for accelerated vesting in the event of a Change in Control, or to the extent that a Stock Appreciation Right is vested and not yet exercised, the Administrator in its discretion may provide, in connection with the Change in Control transaction, for the purchase or exchange of each Stock Appreciation Right for an amount of cash or other property having a value equal to the value of the cash or other property that the Participant would have received pursuant to the Change in Control transaction in exchange for the shares issuable upon exercise of the Stock Appreciation Right had the Stock Appreciation Right been exercised immediately prior to the Change in Control.

(d) Outstanding Options and Stock Appreciation Rights shall terminate and cease to be exercisable upon consummation of a Change in Control except to the extent that the Options or Stock Appreciation Rights are assumed by the successor entity (or parent thereof) pursuant to the terms of the Change in Control transaction.

(e) The Administrator shall cause written notice of a proposed Change in Control transaction to be given to Participants not less than fifteen (15) days prior to the anticipated effective date of the proposed transaction.

ARTICLE 12.

AMENDMENT AND TERMINATION OF THE PLAN

12.1 Amendments. The Board may from time to time alter, amend, suspend or terminate the Plan in such respects as the Board may deem advisable. No such alteration, amendment, suspension or termination shall be made which shall substantially affect or impair the rights of any Participant under an outstanding Award Agreement without such Participant's consent. The Board may alter or amend the Plan to comply with requirements under the Code relating to Incentive Options or other types of options which give Optionees more favorable tax treatment than that applicable to Options granted under this Plan as of the date of its adoption. Upon any such alteration or amendment, any outstanding Option granted hereunder may, if the Administrator so determines and if permitted by applicable law, be subject to the more favorable tax treatment afforded to an Optionee pursuant to such terms and conditions.

12.2 Plan Termination. Unless the Plan shall theretofore have been terminated, the Plan shall terminate on the tenth (10th) anniversary of the Effective Date and no Awards may be granted under the Plan thereafter, but Awards and Award Agreements then outstanding shall continue in effect in accordance with their respective terms.

ARTICLE 13.

TAX WITHHOLDING

13.1 Tax Withholding. The Participant shall be responsible for payment of any taxes or similar charges required by law

to be withheld from an Award or an amount paid in satisfaction of an Award, which shall be paid by the Participant on or prior to the payment or other event that results in taxable income in respect of an Award. The Award Agreement may specify the manner in which the withholding obligation shall be satisfied with respect to the particular type of Award.

ARTICLE 14.

MISCELLANEOUS

14.1 Benefits Not Alienable. Other than as provided above, benefits under the Plan may not be assigned or alienated, whether voluntarily or involuntarily. Any unauthorized attempt at assignment, transfer, pledge or other disposition shall be without effect.

14.2 Awards subject to Code Section 409A. Any Award that constitutes, or provides for, a deferral of compensation subject to Section 409A of the Code (a "Section 409A Award") shall satisfy the requirements of Section 409A of the Code, to the extent applicable as determined by the Administrator. The Award Agreement with respect to a Section 409A Award shall incorporate the terms and conditions required by Section 409A of the Code. If any deferral of compensation is to be permitted in connection with a 409A Award, the Administrator shall establish rules and procedures relating to such deferral in a manner intended to comply with the requirements of Section 409A of the Code, including, without limitation, the time when an election to defer may be made, the time period of the deferral and the events that would result in payment of the deferred amount, the interest or other earnings attributable to the deferral and the method of funding, if any, attributable to the deferred amount.

14.3 No Enlargement of Employee Rights. This Plan is strictly a voluntary undertaking on the part of the Company and shall not be deemed to constitute a contract between the Company and any Participant to be consideration for, or an inducement to, or a condition of, the employment of any Participant. Nothing contained in the Plan shall be deemed to give the right to any Participant to be retained as an employee of the Company or any Affiliated Company or to interfere with the right of the Company or any Affiliated Company to discharge any Participant at any time.

14.4 Application of Funds. The proceeds received by the Company from the sale of Common Stock pursuant to Option Agreements and Restricted Stock Award Agreements, except as otherwise provided herein, will be used for general corporate purposes.

14.5 Unfunded Plan. The adoption of the Plan and any reservation of shares of Common Stock or cash amounts by the Company to discharge its obligations hereunder shall not be deemed to create a trust or other funded arrangement. Except upon the issuance of Common Stock pursuant to an Award, any rights of a Participant under the Plan shall be those of a general unsecured creditor of the Company, and neither a Participant nor the Participant's permitted transferees or estate shall have any other interest in any assets of the Company by virtue of the Plan.

14.6 Annual Reports. During the term of this Plan, the Company will furnish to each Participant who does not otherwise receive such materials, copies of all reports, proxy statements and other communications that the Company distributes generally to its stockholders.

14.7 Recovery. All Options and Stock Appreciation Rights, or any shares of Common Stock or cash issued or awarded pursuant to the exercise of Options or Stock Appreciation Rights, and all Restricted Stock and Restricted Stock Units will be subject to recoupment in accordance with the Company's Incentive Compensation Clawback Policy, as amended or modified from time to time. In addition, the Administrator may impose such other clawback, recovery or recoupment provisions in a Stock Option Agreement, Stock Appreciation Right Agreement or Restricted Stock Award Agreement as the Administrator determines necessary or appropriate, including but not limited to a reacquisition right in respect of previously acquired shares of Common Stock or other cash or property upon the occurrence of any of the following events with respect to a Participant: (i) such Participant's commission of any felony or any crime involving fraud, dishonesty or moral turpitude; (ii) such Participant's attempted commission of, or participation in, a fraud or act of dishonesty against the Company, any customer or vendor of the Company or any third party with whom the Company is or was engaged in business; (iii) such Participant's intentional, material violation of any contract or agreement between the Participant and the Company or of any statutory duty owed to the Company; (iv) such Participant's unauthorized use or disclosure of the Company's confidential information or trade secrets; or (v) such Participant's gross misconduct. No recovery of compensation under this Section 14.7 will be an event giving rise to a right to resign for "good reason" or "constructive termination" (or similar term) under any agreement with the Company.

14.8 Stockholder Approval. This Plan, as amended and restated, shall be effective as of the date of approval of the stockholders of the Company.
